Chair: Gail E. Walton

Insight

The Department of Child Development offers opportunities for students to learn about current child development theories and research, and to observe and apply this knowledge during practical field experiences.

Our program focuses not only on prenatal, infant, and early child development, but also middle childhood, adolescence, and emerging adulthood. We offer a comprehensive approach to:

- Learning about children's social, emotional, cognitive, physical, and neurodevelopment.
- Assessing children and environments (developmental needs, behavioral guidance, home, school, community).
- Analyzing developmental contexts (including gender, ethnicity, social class, culture).
- Understanding how relationships (e.g., family, peer, romantic) shape development.
- Internship courses that allow students to apply knowledge, learning experiences, and critical thinking skills in professional settings.

In addition to developmental period courses (i.e., prenatal/infancy, early and middle childhood, adolescence, and emerging adulthood), we offer courses on dating, marriage, parenting, family relations, children's gender and sexuality, risk and resilience, social and emotional intelligence, and global perspectives of childhood.

We have exceptional faculty with expertise in a wide array of child development topics and areas of professional work related to children and families. Our advisors and faculty are highly involved with students, helping them develop their academic and career goals.

Child development majors have the opportunity to participate in three internship courses that are embedded in the major, each one offering students diverse opportunities to gain important work-related knowledge, experiences, and applied skills under the guidance and supervision of staff and faculty. Some students may complete honors in the major, gaining essential research-related skills and opportunities. Additionally, we offer several unique 1-unit courses to help students further explore their professional and academic interests.

Experience

Child development provides a wide variety of courses and internships designed to prepare students for work in careers focused on children and families. For example, students gain knowledge and experiences that can help prepare them to pursue a teaching career, work in human service agencies that support children and families, engage advocacy, and conduct research. Faculty assist and support students' professional development by fostering collaborative learning environments that integrate high-quality teaching, mentoring, promoting scholarly activities, guiding relevant practical experiences, and modeling leadership.

We have a very active Child Development Student Association (CDSA) that is advised by one of our faculty members. Attending CDSA meetings provide opportunities to:

- Meet other peers who are taking or have taken child development courses and may be interested in pursuing similar careers.
- Learn from professionals about their work in related fields.
- Develop leadership skills/experiences for those who are interested in becoming an officer.

Outlook

Students in the Department of Child Development understand how development and environments affect children and families and apply this knowledge in a variety of personal and professional settings. Graduates of the program are knowledgeable and reflective professionals who have gained valuable field experience and who recognize and value the uniqueness and diversity of children and families within and across multiple contexts.

Our graduates work in a variety of professional fields including public and private education (pre-K–12), childcare staff and administration, early intervention and other human service agencies, community programs (e.g., YMCA, Boys & Girls Clubs, youth development), behavioral assessment, family resource and referral specializations (e.g., foster care and adoption), and parent support programs. Many of our graduates obtain additional degrees to work as child life specialists, social workers, counselors, school psychologists, researchers, and program or agency directors.

This course examines the role of curriculum in effective learning programs for children's development. Students gain skills in applying knowledge of children's growth and development to appropriate experiences in the creative arts, play, math, science, literacy, and language. Planning, implementing, and evaluating curriculum activities are key components of the course. Students in the class work directly with children in an approved community program approximately 3 hours a week: 2 hours discussion, 3 hours independent study. (001447)

Grade Basis: Graded
Repeatability: Yes, you may take this course for a maximum of 6 units

Typically Offered: Fall and spring

The goal of this online course is to explore typical development related to healthy children with healthy relationships and to put that in the context of children with risk (i.e., adverse experiences) and children who overcome that risk (i.e., resilient). This understanding is viewed through the lens of neurobiology (e.g., regulation and dysregulation understood through brain functioning). Additionally, working with youth experiencing either adverse trauma or relational poverty is emphasized. 3 hours lecture. (021761)

General Education: Upper-Division Social Sciences (UDD); Health and Wellness Pathway

Grade Basis: Graded
Repeatability: Yes, you may take this course for a maximum of 3 units

Course Attributes: Upper Division
CHLD 333W  Children's Gender and Sexuality Development (W)  3 Units  GE, USD, W
Prerequisite: Junior standing; GE Oral Communication (A1); GE Written Communication (A2); GE Critical Thinking (A3); GE Mathematics/Quantitative Reasoning (B4) requirements, or consent of the instructor.
Typically Offered: Fall and spring
This topical course is designed for students who wish to develop a broader and deeper understanding of children's gender and sexuality development. Students study multiple theoretical explanations of gender and sexuality development, and learn how biological, social, cultural, and cognitive influences impact concepts of gender and sexuality. 3 hours lecture.  (021356)

General Education: Upper-Division Social Sciences (UDD); Gender and Sexuality Pathway
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; US Diversity; Writing Course

CHLD 350  Prenatal-Infant Development: Advanced  3 Units
Prerequisite: CHLD 252 or PSYC 355.
Typically Offered: Spring only
This course studies characteristic developmental changes in and environmental influences on human infants from conception to approximately two years of age. Special emphasis is on sensory-perceptual abilities, social-emotional interactions, and cognitive developmental processes. Guided observations of infants required. 3 hours discussion.  (001446)

Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

CHLD 351  Toddler-Early Childhood Development: Advanced  3 Units
Prerequisite: CHLD 252 or PSYC 355.
Typically Offered: Fall and spring
This course examines the physical, cognitive, emotional, and psychosocial aspects of growth during the stages of toddlerhood and early childhood (approximately ages 2 through 5), as well as contextual influences (e.g., family, group experiences, socioeconomic status, culture) on development of children for this age. 3 hours lecture.  (021623)

Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

CHLD 353W  Methods of Inquiry in Child Development (W)  3 Units  W, GW
Prerequisite: GE Written Communication (A2), GE Mathematics/Quantitative Reasoning (B4), CHLD 251, CHLD 252, CHLD majors only.
Typically Offered: Fall and spring
Students learn the fundamentals of scientific methodology, increase their knowledge of qualitative research methods, and acquire quantitative skills in measurement and statistical evaluation. These skills are applied through reviewing, evaluating, and communicating research. Students also identify the major dimensions of research strategies used in child development and related fields. 2 hours activity, 2 hours seminar.  (001448)

Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Writing Course; Graduation Writing Assessment

CHLD 354  The School-Aged Child  3 Units
Prerequisite: CHLD 252 or PSYC 355.
Typically Offered: Fall and spring
This course examines the physical, cognitive, emotional, and psychosocial aspects of growth during the school-aged years (ages 5 through 12), as well as contextual influences (e.g., family, school, peer group) on children's development. Particular attention is paid to the implications of developmental patterns for those who work with school-aged children. 3 hours lecture.  (001449)

Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

CHLD 357  Adolescent Development  3 Units
Prerequisite: CHLD 252 or PSYC 355.
Typically Offered: Fall only
This course provides a broad research and theory-based overview of physical, cognitive, emotional, social, moral, and identity development during adolescence. An ecological framework is used to examine the influence of sociocultural contexts, ethnicity, gender, family, peers, and school settings on adolescent experience and development. 3 hours discussion.  (001461)

Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

CHLD 360  Social-Emotional Intelligence: Development and Learning  3 Units  GE
Prerequisite: GE Oral Communication (A1); GE Written Communication (A2); GE Critical Thinking (A3); GE Mathematics/Quantitative Reasoning (B4) requirements, or consent of the instructor.
Typically Offered: Fall and spring
The goal of this online course is to explore healthy social and emotional development including self-regulatory and interpersonal abilities, empathy development, prosocial behavior, and well-being across development periods from birth to young adulthood. Guided by interpersonal neurobiology (an interdisciplinary field that integrates attachment research and emerging findings from neuroscience) and interdisciplinary research on social emotional learning (SEL) programs, we explore the influence of primary relationships and contexts (family, peers, school, community) in shaping social-emotional competencies, emotional intelligence, and emotional learning across developmental periods. 3 hours lecture.  (022089)

General Education: Upper-Division Social Sciences (UDD); Health and Wellness Pathway
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

CHLD 382  Professional Seminar in Child Development: Current Issues  3 Units
Prerequisite: CHLD 251, CHLD 252, CHLD 282, CHLD 353W, CHLD majors only.
Corequisites: CHLD 392.
Typically Offered: Fall and spring
This course examines and appraises current and professional issues affecting the field of child development. Cultural and political influences on the practices of professionals in the field are explored and analyzed. 3 hours lecture.  (020216)

Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

CHLD 489  Internship in Child Development  1-6 Units
Prerequisite: Faculty permission.
Typically Offered: Inquire at department
This course is an internship offered for 1.0-6.0 units. You must register directly with a supervising faculty member. Provides direct experience in agencies, institutions, or work settings appropriate to the application of Child Development background and training. 9 hours supervision.  (001466)
Grade Basis: Report in Progress: CR/NC
Repeatability: You may take this course for a maximum of 15 units
Course Attributes: Upper Division

CHLD 492 Child Development Practice: Children and Families  3 Units
Prerequisite: CHLD 382, CHLD 392, CHLD major only.
Typically Offered: Fall and spring
This course is a guided internship for majors in Child Development. Based on individually determined internship learning objectives, students select a community-based agency placement that matches their career interest in children from birth through emerging adulthood and/or their families. Students spend a minimum of 7.5 hours a week in their internship placement for 12 weeks. 4 hours activity, 3 hours independent study.  (001467)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

CHLD 495H Senior Seminar in Child Development - Honors (W)  3 Units W
Prerequisite: CHLD 382, CHLD 392, CHLD majors only, acceptance in honors in the major program, department permission.
Typically Offered: Fall and spring
This capstone seminar integrates the perspectives of various disciplines concerned with the developing child. Its emphasis is on trauma-informed practices, physical, cognitive, personality, and social development of the child in relationship to the family, community, and society. From a research framework, the topics include program practices, professional ethics, collaboration, case management, effective communication, leadership styles, self evaluation, and professional responsibilities. Students also complete comprehensive portfolios as part of the course requirements. 3 hours seminar.  (001469)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Writing Course

CHLD 498 Special Topics  1-3 Units
Prerequisite: Department permission.
Typically Offered: Inquire at department
This course is for special topics offered for 1.0-3.0 units. Typically the topic is offered on a one-time-only basis and may vary from term to term and be different for different sections. See the Class Schedule for the specific topic being offered. 3 hours seminar.  (001470)
Grade Basis: Graded
Repeatability: You may take this course more than once
Course Attributes: Upper Division

CHLD 499 Special Problems  1-3 Units
Prerequisite: Department permission.
Typically Offered: Fall and spring
This course is an independent study of special problems offered for 1.0-3.0 units. Students must register directly with a supervising faculty member and receive department permission to enroll. 3 hours weekly supervision per unit. 9 hours supervision.  (001471)
Grade Basis: Credit/No Credit
Repeatability: You may take this course for a maximum of 6 units
Course Attributes: Upper Division

CHLD 499H Honors Independent Study  3 Units
Prerequisite: CHLD majors only; acceptance in undergraduate honors program, department permission.
Typically Offered: Fall and spring
Independent study resulting in a piece of scholarly or creative work involving substantial research to be completed and publicly presented. This will be the first course taken in the year-long honors program in the major and is open only to undergraduate honors students. 9 hours independent study.  (001472)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

CHLD 689 Internship  1-6 Units
Typically Offered: Inquire at department
This course is an internship offered for 1.0-6.0 units. You must register with a supervising faculty member. 0 hours supervision.  (021873)
Grade Basis: Credit/No Credit
Repeatability: You may take this course for a maximum of 6 units
Course Attributes: Graduate Division

CHLD 695W Senior Seminar in Child Development (W)  3 Units W
Prerequisite: CHLD 382, CHLD 392, CHLD majors only.
Typically Offered: Fall and spring
This capstone seminar integrates the perspectives of various disciplines concerned with the developing child. Its emphasis is on trauma-informed practices, physical, cognitive, personality, and social development of the child in relationship to the family, community, and society. From a research framework, the topics include program practices, professional ethics, collaboration, case management, effective communication, leadership styles, self evaluation, and professional responsibilities. Students also complete comprehensive portfolios as part of the course requirements. 3 hours seminar.  (001468)
