Undergraduate teaching and learning is their highest priority. actively involved in publishing and grants, and is involved in local doctoral degrees from prestigious American graduate programs, is with a broad and in-depth exposure to the discipline. The faculty holds conjunction with numerous applied case studies to provide students.

The economics faculty uses a combination of diverse approaches in other fields.

greatly enhance employment opportunities for students with majors in communications, environmental studies, journalism, education, social sciences. In the working world, on average, women with bachelor's degrees make about 75% as much as men; but women with bachelor's degrees in economics make about the same as their male counterparts. Economics majors with mathematics, statistics, or computer skills are in very high demand and command substantial starting salaries. The career outlook for those with a BA in economics is very positive.

Insight
An economics degree offers exciting and high paying career opportunities. Our majors find jobs in business, legal, federal and state governments, international organizations, nonprofits, and education. Our Bachelor of Science in Economics program provides students with in-depth knowledge of economic theories, policies, and data analysis. Our students graduate with key critical-thinking and quantitative skills for analyzing complex issues. The program offers four areas of concentration (financial economics, environmental economics and public policy, quantitative economics, and international economics), which allow students to specialize in the field of economics that best matches their interest.

Our upper division courses are smaller-sized, facilitating student-faculty interaction while also engaging students in faculty research. The Economics Club organizes seminars, invites guest speakers, and plans social activities that help students build a stronger community.

More information about Chico State Economics programs, with helpful advising information for first-year and transfer students, is available by contacting the department.

Experience
Students may be eligible for internship credit if they take jobs that expand their knowledge of economics and/or allow them to apply the economics they have learned in class. A maximum of three units of internship credit may be applied to complete the major. Economics majors have held internships ranging from stock brokerage firms in Chico to the United States Agency for International Development in Washington, D.C. For some, internships turn into full-time jobs. Students interested in an internship should see the department chair.

Students may earn a double major in economics and one of the business majors without doubling unit requirements since some courses count towards both majors. A double major in economics and social sciences satisfies the requirements to enter a teaching credential program and to prepare to teach economics at the high school level. A minor in economics enhances employment opportunities for students with majors in communications, environmental studies, journalism, education, geography, planning, business, international relations, and a variety of other fields.

The economics faculty uses a combination of diverse approaches in conjunction with numerous applied case studies to provide students with a broad and in-depth exposure to the discipline. The faculty holds doctoral degrees from prestigious American graduate programs, is actively involved in publishing and grants, and is involved in local economic issues. Often students work with faculty on research projects. Undergraduate teaching and learning is their highest priority.

Outlook
There is a strong demand for those with a BA in economics in the business, finance, banking, planning, marketing, and insurance areas. At the local, state, and federal levels, economics majors compete extremely well for jobs in the public sector. There is an increasing demand for teachers of high school economics. Economics is an excellent major for those planning to enter law school. Economics majors earn more on an annual basis and have higher lifetime earnings than other majors in the social sciences. In the working world, on average, women with bachelor's degrees make about 75% as much as men; but women with bachelor's degrees in economics make about the same as their male counterparts. Economics majors with mathematics, statistics, or computer skills are in very high demand and command substantial starting salaries. The career outlook for those with a BA in economics is very positive.

ECON 101 Introduction to Economics 3 Units GE
Typically Offered: Fall and spring
A non-technical introduction to economics with coverage of both microeconomics and macroeconomics. Overview of the evolution of economic concepts and ideas. Application of economics to current problems such as inflation, unemployment, the financial sector, the economics of regulation, market imperfections, environmental problems, and international economics. Consumer decision making and different market models are included. (Can be substituted for ECON 102 in the major if students also take ECON 330 as one of their 300-level electives.) 3 hours lecture. (002635)

General Education: Social Sciences (D)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division

ECON 102 Principles of Macroeconomic Analysis 3 Units GE
Typically Offered: Fall and spring
An introductory survey of macroeconomic analysis. Use of fundamental economic concepts to analyze the over-all economy. Determination of gross national product, rates of unemployment, problems of inflation, recession, and the use of governmental policies. Discussion of current problems. 3 hours lecture. (002636)

General Education: Social Sciences (D)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division

ECON 103 Principles of Microeconomic Analysis 3 Units GE
Typically Offered: Fall and spring
An introductory survey of microeconomic analysis. The nature of consumers and producers; factors affecting prices and quantities; and the economic theory of the market and the firm. 3 hours lecture. (002637)

General Education: Social Sciences (D)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division
ECON 103  Principles of Microeconomic Analysis  3 Units  GE
Typically Offered: Fall and spring
An introductory survey of microeconomic analysis. Analysis of individual economic units: household, firms, and markets. Analysis of individual decision making. Supply and demand analysis. Type of market organization: competition, oligopoly, and monopoly. Discussion of current problems. 3 hours lecture. (002638)
General Education: Social Sciences (D)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division

ECON 301  Microeconomic Analysis  3 Units
Typically Offered: Fall and spring
Microeconomics examines the economic behavior of individual decision-making agents, such as consumers, resource owners, and firms. The goal of this course is to build a theoretical foundation to study various applied fields in economics and management (such as international trade, public finance, labor, or environmental economics). Topics include consumer theory, production and cost analysis, theories of the firm and markets, and welfare economics. 3 hours discussion. (002647)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ECON 302  Macroeconomic Analysis  3 Units
Typically Offered: Fall and spring
An extension of macroeconomic concepts and principles relating to short-term stabilization policies, long-term growth questions, fiscal and monetary theory and policy, international dimensions, and problems of inflation, deflation, unemployment, productivity, and growth. Theories and models are used to examine, develop, and analyze macroeconomics issues, problems, and policies. 3 hours discussion. (002648)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ECON 330  Money and Credit  3 Units
Typically Offered: Spring only
Financial markets and financial institutions. Impact of money and credit on the economy. Central banking and monetary policy. International finance. Macroeconomics and monetary theory will be emphasized. (Can be substituted for ECON 102 in the major.) 3 hours lecture. (002660)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ECON 340W  Work, Wealth, and Income Distribution (W)  3 Units  GE, W
Typically Offered: Fall and spring
Investigation of the nature and causes of income distribution in the United States. Consideration of the social and economic forces which generate income levels and determine patterns of economic mobility over time, interweaving theoretical, descriptive, quantitative, and normative aspects. 3 hours lecture. (021270)
General Education: Upper-Division Social Sciences (UDD); Equity, Ethics, and Policy Pathway
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Writing Course

ECON 352  Medical Economics  3 Units  GE
Typically Offered: Fall and spring
An examination of the health care industry and its role in fulfilling national health needs. Topics include national health insurance, health financing, and resource allocation. 3 hours lecture. (002667)
General Education: Upper-Division Social Sciences (UDD); Health and Wellness Pathway
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ECON 355  The Economics of Government Regulations  3 Units
Typically Offered: Spring only
An overview of the economics of government regulation with emphasis on the formulation of regulatory policy, alternative methods of regulation, and the economic impacts of such policy. Topics may include environmental regulation, energy conservation policy, consumer protection, antitrust policy, and a critical evaluation of market-based regulatory policy. 3 hours lecture. (002668)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division
ECON 361 Sports Economics  
Prerequisite: ECON 103.  
Typically Offered: Spring only  
This course is designed to investigate the world of sports through an applied economics framework. Using this framework allows us to begin to answer questions like 'Do sports franchises always try to maximize profits?', 'How is the price of ticket to a particular sporting event determined?', 'Should cities help fund the building if sports arenas?', and 'Do either fans or employers discriminate against players based on their ethnicity/race/nationality?'. To answer these questions, this course extends theories and models from various fields of economics (for example, Industrial Organization, Public Finance, and Labor Economics) to the domain of sports. The goal of this course is for students to be able to apply economic theory to a real world setting—setting where data is readily available to test these theories. Therefore, in addition to the theoretical answer to these questions, this course discusses what empirical evidence has been found to these same questions. 3 hours lecture. (021847)  
Grade Basis: Graded  
Repeatability: You may take this course for a maximum of 3 units  
Course Attributes: Upper Division

ECON 365 Environmental Economics  
Prerequisite: GE Oral Communication (A1); GE Written Communication (A2); GE Critical Thinking (A3); GE Mathematics/Quantitative Reasoning (B4) requirements, or consent of the instructor.  
Typically Offered: Fall and spring  
An analysis of the costs and benefits of environmental preservation. Systems for creating economic incentives for pollution abatement. Criteria for establishing optimum pollution abatement, including efficiency, safety, and sustainability standards. Impacts of population growth on global environmental problems. Alternative energy use patterns and their impact on energy markets and global environmental health. 3 hours lecture. (002671)  
General Education: Upper-Division Social Sciences (UDD); Agriculture, Food, and Environment Pathway; California Studies Pathway; Sustainability and Climate Change Pathway  
Grade Basis: Graded  
Repeatability: You may take this course for a maximum of 3 units  
Course Attributes: Upper Division; Sustainable Course

ECON 370 International Finance and Trade Policy  
Prerequisite: ECON 103 or faculty permission.  
Typically Offered: Spring only  
A study on the theory of international finance and trade. In-depth analysis of what determines trade flows, gains from trade, and the international flow of capital and technology. Focus on international trade policies and institutions and a survey of current trade problems and conflicts. 3 hours lecture. (002672)  
Grade Basis: Graded  
Repeatability: You may take this course for a maximum of 3 units  
Course Attributes: Upper Division

ECON 375 The Developing Countries  
Prerequisite: ECON 103.  
Typically Offered: Fall only  
This course surveys theoretical approaches and policy options to the problems of development and underdevelopment in Latin America, Africa, and Asia. Agricultural transformations, industrial development, balance of payments problems, the role of foreign aid, direct foreign investment, the economic role of international institutions such as the World Bank, and other related topics are included in this course. 3 hours lecture. (002673)  
Grade Basis: Graded  
Repeatability: You may take this course for a maximum of 3 units  
Course Attributes: Upper Division; Sustainable Course

ECON 380 Economic Statistics  
Prerequisite: ECON 102 or ECON 103, MATH 105 or faculty permission.  
Typically Offered: Fall and spring  
The objective of this course is to show the relevance of statistical analysis for economics. Each topic is presented with an application of a macroeconomic or microeconomic theory. Real data is used in software applications for developing a conceptual understanding of the problem and for analyzing the data. 3 hours discussion. (002675)  
Grade Basis: Graded  
Repeatability: You may take this course for a maximum of 3 units  
Course Attributes: Upper Division

ECON 389 Internship  
Typically Offered: Fall and spring  
This course is an internship offered for 1.0-6.0 units. You must register directly with a supervising faculty member. Field experience in working with economic data designed to complement the theoretical classroom curriculum and to give students work experience related to their studies. Placements are limited, so students must be screened. Units are dependent upon the number of hours in the field. May be repeated up to a maximum of 15 units. No more than 3 units can be counted toward 300-level Economics major requirement. 9 hours supervision. (002677)  
Grade Basis: Credit/No Credit  
Repeatability: You may take this course for a maximum of 15 units  
Course Attributes: Upper Division

ECON 398 Special Topics  
Prerequisite: Department permission.  
Typically Offered: Fall and spring  
This course is for special topics offered for 1.0-3.0 units. Typically the topic is offered on a one-time-only basis and may vary from term to term and be different for different sections. See the Class Schedule for the specific topic being offered. 2 hours lecture. (002679)  
Grade Basis: Graded  
Repeatability: You may take this course more than once  
Course Attributes: Upper Division

ECON 399 Special Problems  
Typically Offered: Fall and spring  
This course is an independent study offered for 1.0-3.0 units. You must register directly with a supervising faculty member. 9 hours supervision. (002680)  
Grade Basis: Credit/No Credit  
Repeatability: You may take this course for a maximum of 6 units  
Course Attributes: Upper Division

University Catalog 2024-2025  
Economics  
3
ECON 431HW Theory of Money - Honors (W) 3 Units W
Prerequisite: ECON 302, acceptance into the Honors in the Major Program.
Typically Offered: Fall only
A survey course of monetary theories. The role of money in general equilibrium and exchange theory. Money in the classical system. Keynes' theory of money. Monetarism. Honors student enrolled in this class are held to more rigorous standards and expectations in both reading and writing assignments than students in ECON 431. 3 hours seminar. (020735)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Writing Course

ECON 431W Theory of Money (W) 3 Units W
Prerequisite: ECON 302.
Typically Offered: Fall only
A survey course of monetary theories. The role of money in general equilibrium and exchange theory. Money in the classical system. Keynes' theory of money. Monetarism. 3 hours seminar. (002688)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Writing Course

ECON 440 Labor Economics 3 Units
Prerequisite: ECON 301.
Typically Offered: Fall only
This course is designed to be an introduction to labor markets with emphasis on applied microeconomic theory. The course begins with the classical models of labor demand and labor supply. This framework is then used to discuss questions like 'How do individuals choose how much to work, it at all?', 'What are the effect of a minimum, wage on labor markets outcomes?', 'How do unions impact the labor market?', and 'Why does discrimination exist in a perfectly competitive market?'. In addition to looking at the theoretical answer to these questions, this course also discusses what empirical answers have been found to these same questions. 3 hours lecture. (002690)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ECON 452 Health Economics 3 Units
Prerequisite: ECON 380.
Typically Offered: Spring only
This course examines economics as it applies to global health. Students study the role health plays in economic development with emphasis on developing countries. While students learn some theories in health economics, development economics and econometrics sub fields, the bulk of the course load is applied centric. The course first provides students with a toolkit for analyzing issues related to global health economics and then requires them to apply these skills. 3 hours lecture. (022007)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ECON 466HW Environmental and Natural Resource Economics - Honors (W) 3 Units W
Prerequisite: ECON 301, acceptance into the Honors in the Major Program.
Typically Offered: Fall only
Economic theory and policy concerning optimization of resource use and pollution abatement. Incentive systems for generating optimum pollution abatement. Efficiency, safety, and sustainability standards as criteria defining the appropriate level of environmental protection. Economically efficient rates of consumption for renewable and non-renewable resources. Case studies in resource exploitation assessing whether current use rates deviate from the optimum. Honors students enrolled in this class are held to more rigorous standards and expectations in both reading and writing assignments than students in ECON 466. 3 hours lecture. (020739)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course; Writing Course

ECON 470 International Economics 3 Units
Prerequisite: ECON 301.
Typically Offered: Fall only
Economic problems arising out of economic relations and interactions among nations. Current theory of international trade, capital flows, and finance. International economic institutions and their relationship to American foreign policy. 3 hours seminar. (002697)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ECON 470H International Economics - Honors 3 Units
Prerequisite: ECON 301, acceptance into the Honors in the Major Program.
Typically Offered: Fall only
Economic problems arising out of economic relations and interactions among nations. Current theory of international trade, capital flows, and finance. International economic institutions and their relationship to American foreign policy. Honors students enrolled in this class are held to more rigorous standards and expectations in both reading and writing assignments than students in ECON 470. 3 hours seminar. (020740)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division
ECON 475 Open-Economy Macroeconomics 3 Units
Prerequisite: ECON 302.
Typically Offered: Spring only
The main objective of this course is to develop macroeconomics models that apply to the international economic phenomena. The first part of the course discusses the main theories which are combined into a unifying theoretical framework and applied to actual policy issues. The second part of the course covers relatively new topics in international macroeconomics such as stabilization policies, macroeconomics policy coordination, optimum currency areas, and proposed reforms in the international financial system. Honors students enrolled in this course are held to more rigorous standards and expectations in both readings and writing assignments. 3 hours discussion. (021226)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ECON 476 Issues in Global Environment and Development 3 Units
Prerequisite: ECON 301.
Typically Offered: Spring only
Explores the issues in poverty and economic development as they relate to climate change, gender, and international trade. 3 hours discussion. (021227)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ECON 481 Introductory Econometrics 3 Units
Prerequisite: ECON 301, ECON 302, ECON 380.
Typically Offered: Fall only
Use of mathematics and statistics to design and test econometric models. 3 hours discussion. (002699)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ECON 481H Introductory Econometrics - Honors 3 Units
Prerequisite: ECON 301, ECON 302, acceptance into the Honors in the Major Program.
Typically Offered: Fall only
Use of mathematics and statistics to design and test econometric models. Honors students enrolled in this class are held to more rigorous standards and expectations in both reading and writing assignments than students in ECON 481. 3 hours discussion. (020741)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ECON 483 Econometrics II 3 Units
Prerequisite: ECON 380, ECON 481.
Typically Offered: Spring only
This course provides tools of applied econometric analysis by building upon the concepts of econometrics and regression analysis attained in Econ 481. The students will be working closely with data as well as statistical software and use applied econometric methods beyond the linear regression model. 3 hours seminar. (002701)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ECON 495W Capstone in Economics (W) 3 Units W, GW
Prerequisite: GE Written Communication (A2) requirement, ECON 102, ECON 103, ECON 301, ECON 302, ECON 380 and senior status.
Typically Offered: Fall and spring
Students review selected economic literature and complete written assignments that relate readings to their area of interest in economics. Class meetings provide opportunities for constructive critiques from the instructor, feedback from other students, in-class writing, and oral presentations. The course is also used for program assessment. Honors in the Major students can substitute ECON 499H for ECON 495. 3 hours seminar. (002704)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Writing Course; Graduation Writing Assessment

ECON 498 Special Topics in Economics 1-3 Units
Typically Offered: Fall and spring
This course is for special topics offered for 1.0-3.0 units. Typically the topic is offered on a one-time-only basis and may vary from term to term and be different for different sections. See the Class Schedule for the specific topic being offered. 3 hours supervision. (002721)
Grade Basis: Graded
Repeatability: You may take this course more than once
Course Attributes: Upper Division

ECON 499 Special Problems 1-3 Units
Prerequisite: Faculty permission.
Typically Offered: Fall and spring
This course is an independent study of special problems offered for 1.0-3.0 units. You must register directly with a supervising faculty member. 3 hours supervision. (002722)
Grade Basis: Credit/No Credit
Repeatability: You may take this course for a maximum of 6 units
Course Attributes: Upper Division

ECON 499HW Honors Independent Study in Economics (W) 3 Units W, GW
Prerequisite: Admission to Honors in Economics Program, GE Written Communication (A2) requirement, ECON 301 or ECON 302, faculty permission.
Typically Offered: Fall and spring
As part of the 400-level economics courses used for admission to the honors program, students undertake a research project on a topic approved by the course and honors instructors. In ECON 499H, students complete the project undertaken in the first semester and meet all course requirements for ECON 499H, including a public presentation of their research. Because ECON 499H is a writing proficiency course, students completing this course with a B or higher are not required to take ECON 495. 3 hours supervision. (002723)
Grade Basis: Report in Progress: Graded
Repeatability: You may take this course for a maximum of 6 units
Course Attributes: Upper Division; Writing Course; Graduation Writing Assessment

ECON 697 Independent Study 1-3 Units
Typically Offered: Fall and spring
9 hours supervision. (020123)
Grade Basis: Report in Progress: Graded
Repeatability: You may take this course for a maximum of 6 units
Course Attributes: Graduate Division
