Advising Requirement

Advising is mandatory for this program. Consult your department advisor or program coordinator for information.

E-advising Tools

Students are encouraged to use the interactive e-advising tools that have been designed to help them graduate within four years. These tools can be accessed through the Student Center.

The Bachelor of Arts in Criminal Justice explores the institutions involved in the administration of justice (e.g., policing, corrections) as well as a multidisciplinary examination into the social and psychological issues associated with criminal behavior and crime control. Students who are interested in why individuals commit crime, how governments respond to behaviors they deem undesirable, and the effects of the criminal justice system's actions on different communities will find the criminal justice major a perfect academic home. Graduates pursue careers in various aspects of public safety, private enterprise, social welfare, and law and graduate school.

All courses taken to fulfill program course requirements must be taken for a letter grade except those courses specified by the department as credit/no credit grading only.
