Insight
The Social Science Program prepares students to be informed citizens who use multidisciplinary understandings of concepts, theories, and methods from the social sciences to respond to a range of human experiences, events, and real-world social problems. The program promotes an understanding of diversity, equity, and inclusion, the value of research and service to the community, the importance of social and environmental responsibility, and active participation in civic life.

Experience
The Bachelor of Arts in Social Science is designed for students who have a broad interest in the behavioral and social sciences and for those interested in pursuing a California secondary school teaching credential. The program has two options: multidisciplinary studies and specialization studies. Both options are available to students on campus and for distance education students who do not reside in Chico.

The Master of Arts in Social Science is a flexible interdisciplinary program that allows students to tailor a program to their specific academic or career goals, drawing on curricula from departments in the College of Behavioral and Social Sciences, as well as the School of Education and other programs. While possibilities are varied, some examples include focusing on higher education administration, college student development, cultural and gender studies, and career development counseling.

The Social Science Blended BA + MA Program is one of Chico State's first blended programs and allows students to double count nine units of coursework in our Career and Life Planning area of concentration toward both their bachelor's and master's degrees. Students who complete the Social Science blended program will receive both a bachelor's and master's degree.

The Social Science Program offers several minors that are easily combined with our two options or with other majors. The Career and Life Planning Minor, the Family Relations Minor, and the Gerontology Minor are available in person and fully online. The Minor in California: People, Places, and Cultures is only available to on-campus students.

Students can also take courses to complete the Certificate in Career and Life Planning (https://rce.csuchico.edu/online/career-and-life-planning-certificate-program/) or the Certificate in Gerontology. The Certificate in Career and Life Planning is for professionals who work in a variety of career development settings. The Certificate in Gerontology is for those interested in professions that work with older adults and their families.

Outlook
Social Science BA and MA graduates are in high demand for a variety of professions. The U.S. Bureau of Labor Statistics projects that professional opportunities for those with a degree in social science will grow over the next decade. Graduates are employed in public and private education; career centers; human resource organizations; local, state, and federal government agencies; nonprofit organizations; interest groups; and various realms of the private sector.

SOSC 602 Equity, Leadership, and Policy in Higher Education 3 Units
Typically Offered: Spring only
This course examines mechanisms of power and privilege as they apply to access and equity in higher education. Students examine the barriers to educational access and equity in the contexts of culture, ethnicity, race, sexual orientation, religion/spirituality, ability, and gender. We think of the interaction of diversity and learning as not only involving the differences that students bring to enhance learning environments, but also the ways we as educators respond to those differences in the context of policies, systems, histories, structures, and legislation. In addition to the examination of systemic oppression, equity and inclusion, students explore aspects of diversity as assets in the design of rich and productive learning environments. Students apply their knowledge to the investigation and formation of solutions to contemporary educational problems. 3 hours seminar. (022413)
Grade Basis: Graduate Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Graduate Division

SOSC 660 Social Sciences Practicum in Teaching 3 Units
Prerequisite: Graduate standing in SOSC, department permission.
Typically Offered: Fall and spring
Selection as a teaching assistant (TA) provides an opportunity to participate in the instruction of courses for undergraduate students under the supervision and mentorship of a faculty member. A TA is expected to assist in the development of assignments or exams as well as in-class instruction, hold office hours, proctor examinations and facilitate Web-based course management. TAs are required to attend the instructor's lecture regularly and complete 9 hours of work per week for 3 units. 9 hours supervision. (009097)
