Licensure and Credentialing

For example, licensure or credentialing requirements can include evidence of the right to work in the United States (e.g., Social Security Number or taxpayer identification number) or successfully passing a criminal background check. Students are responsible for determining whether they can meet licensure or credentialing requirements.

The California State University has not determined whether its programs meet other states' educational or professional requirements for licensure and certification. Students enrolled in a California State University program who are planning to pursue licensure or certification in other states are responsible for determining whether they will meet their state's requirements for licensure or certification. This disclosure is made pursuant to 34 §CFR 668.43(a)(5)(v)(C).
