Theatre students are provided focused, pre-professional training within the context of broad, liberal arts study. Through a program of applied studio courses, workshops, and full productions, students learn an immediately useful set of theatre skills to prepare them for entry-level professional theatre employment or advanced study in professional theatre training programs and graduate schools.

The study of textual analysis, literature, and theatre history helps students place the theatre within its larger cultural context, and to think critically, reason clearly, imagine creatively, and communicate effectively about theatre and its world.

The BA and BFA programs share a common foundation of history, literature, and aesthetic principles.

The Bachelor of Arts in Theatre Arts is a well-balanced degree. After completing the common core courses, students select a mix of lower and upper-division electives in performance, technical theatre/design, and dramatic literature/history.

The Bachelor of Fine Arts in Musical Theatre (https://catalog.csuchico.edu/colleges-departments/college-humanities-fine-arts/music-theatre-dance/musical-theatre-bfa/) is a prescribed degree. After completing the common core courses, students focus their studies specifically on musical theatre performance in the areas of acting, singing, and dancing.

Grading Requirement
All courses taken to fulfill program course requirements must be taken for a letter grade except those courses specified by the department as credit/no credit grading only.

Course Requirements for the Major: 56 units
Completion of the following courses, or their approved transfer equivalents, is required of all candidates for this degree. Courses in this program may complete more than one graduation requirement.

Special Theatre Requirements

Honors in the Major

Honors in the Major is a program of independent work in your major. It requires six units of honors coursework completed over two semesters. The Honors in the Major program allows you to work closely with a faculty mentor in your area of interest on an original performance or research project. This year-long collaboration allows you to work in your field at a professional level and culminates in a public presentation of your work. Students sometimes take their projects beyond the University for submission in professional journals, presentation at conferences, or academic competition. Such experience is valuable for graduate school and professional life. Your honors work will be recognized at your graduation, on your permanent transcripts, and on your diploma. It is often accompanied by letters of commendation from your mentor in the department or the department chair.

Some common features of Honors in the Major program are:

- You must take six units of Honors in the Major coursework. All six units are honors courses (marked by a suffix of H), and at least three of these units are independent study (399H, 499H, 599H) as specified by your department. You must complete each course with a minimum grade of B.
- You must have completed 9 units of upper-division coursework or 21 overall units in your major before you can be admitted to Honors in the Major. Check the requirements for your major carefully, as there may be specific courses that must be included in these units.
- Your cumulative GPA should be at least 3.5 or within the top 5% of majors in your department.
- Your GPA in your major should be at least 3.5 or within the top 5% of majors in your department.
- Most students apply for or are invited to participate in Honors in the Major during the second semester of their junior year. Then they complete the six units of coursework over the two semesters of their senior year.
- Your honors work culminates with a public presentation of your honors project.

Honors in the Major is not part of the Honors Program. Each department administers its own program. Please contact your major department or major advisor to apply.
