Insight
The Philosophy Department offers a BA in philosophy, as well as a minor in philosophy and a minor in ethics. Our faculty is top-notch, holding PhDs from Berkeley, Brown, Columbia, Duquesne, Michigan, and Princeton.

Experience
One of the best things about majoring in philosophy at California State University, Chico is that you get to take small classes with outstanding faculty in a very supportive learning community. You get to know your classmates well, and conversations from class often spill out into informal discussions after class. You can also join the Philosophy Club, participate in weekly Tea & Talk, and attend lectures given by visiting scholars in the colloquium series. If you’re looking to hone your thinking through competition you’ll enjoy being a part of our Ethics Bowl team.

Outlook
A degree in philosophy will not train you for a specific job, but it will train you to think carefully about difficult subjects where there is no road map and to clearly express your thoughts in writing and speech. These abilities are prized by employers in nearly every industry with philosophy majors having the highest salary growth trajectory from job entry to mid-career. Philosophy majors also do very well on standardized tests like the LSAT (for law school) and GMAT (for business school). Our graduates work in a variety of fields, including law, technology, and academia.

PHIL 357 Feminist Philosophy 3 Units USD
Typically Offered: Inquire at department
How does the term 'feminist' (a political commitment) modify the term 'theory' (an intellectual practice)? This course addresses this question by surveying several feminist frameworks for thinking about sex, gender, and oppression. We consider whether there is a tenable distinction between sex and gender, what it means to say that a category is socially constructed, and how social constructions can be oppressive. We read a range of contemporary feminist theorists working to analyze the complex interrelations of social differences (gender, race, class, sexual orientation, species), and relations of social domination and economic exploitation in a globalized world. 3 hours lecture. (021818)
