

BIOCHEMISTRY MINOR

The Minor in Biochemistry gives students a solid foundation in introductory, organic, and analytical chemistry, plus a more intensive study of biochemistry. A minor in biochemistry will help students prepare for careers in biotechnology, research, and health-related fields. It is also sufficient to qualify for a supplemental authorization in chemistry to a teaching credential in another discipline.

Course Requirements for the Minor

The following courses, or their approved transfer equivalents, are required of all candidates for this minor.

Course	Title	Units
CHEM 111	General Chemistry I	4
CHEM 112	General Chemistry II	4
CHEM 270	Organic Chemistry I	4
CHEM 320	Quantitative Analysis	4
CHEM 370	Organic Chemistry II	3
CHEM 370L	Organic Chemistry Laboratory	1
CHEM 451	Biochemistry I	3
CHEM 452	Biochemistry II	3
CHEM 453L	Biochemistry Laboratory	1
Total Units		27
