

ASTRONOMY MINOR

The Minor in Astronomy offers space in the sciences for students of any major. It provides a lens with which students from a broad spectrum of majors can apply scientific thought to their chosen orbit of study. For students already majoring in science it provides an additional focus on the first of all the sciences. It will take students to far horizons, regardless of the planned trajectory of their career.

Course Requirements for the Minor

The following courses, or their approved transfer equivalents, are required of all candidates for this minor.

Course	Title	Units
CHEM 107	General Chemistry for Applied Sciences	4
ERTH 203	Evolution of the Earth	3
PHYS 100	Introduction to Astronomy: Survey of the Cosmos	3
PHYS 202A	General Physics I	4
PHYS 202B	General Physics II	4
PHYS 361	Astronomy - Stars and Telescopes	3
PHYS 365	Astronomy - Galaxies and Cosmology	3
Total Units		24
