CONSTRUCTION MANAGEMENT (CMGT)

See Course Description Symbols and Terms (https://catalog.csuchico.edu/academic-standards-policies/course-description-symbols-terms/) for an explanation of course description terminology and symbols, the course numbering system, and course credit units.

CMGT 100 Concepts of Construction
Typically Offered: Fall and spring
This course introduces fundamental construction management concepts including the roles and responsibilities of project stakeholders, project delivery systems, contract types, estimating, scheduling, safety, quality control, cost management, trade coordination, and documentation of the work. 3 hours discussion. (002055)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division

CMGT 101 Construction Management Career Preparation
Typically Offered: Fall and spring
This course helps Construction Management students prepare for careers in the construction industry. It provides students with the opportunity for creating their resumes, learning successful interviewing techniques, obtaining internships, and exploring the many different possible careers in the construction industry. 3 hours laboratory. (020453)
Grade Basis: Credit/No Credit
Repeatability: You may take this course for a maximum of 1 unit
Course Attributes: Lower Division

CMGT 105 Computer Applications in Construction Management
Typically Offered: Fall and spring
This course introduces industry foundation technical computing for Construction Managers. It introduces commercial software commonly used in the management and control of construction projects. Application areas include office suite of programs, paperless workflows, estimating, and scheduling. 2 hours activity, 2 hours discussion. (022069)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division; Laptop required

CMGT 110 Construction Graphics
Prerequisite: CMGT 100, CMGT 105 both with a grade of C or higher.
Typically Offered: Fall and spring
This course introduces the use of lines, symbols, and annotations in construction drawings. It also includes 3D modeling software to visualize and build a model of a commercial building from a set of construction documents. This model is used to produce 2D construction documents. 2 hours activity, 2 hours discussion. (002056)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division; Laptop required

CMGT 135 Construction Materials and Systems
Prerequisite: CMGT 100, CMGT 105 both with a grade of C or higher.
Typically Offered: Fall and spring
This course includes a comprehensive study of the principal materials used in the construction industry and the various systems employing these materials to build structures. 3 hours discussion. (002057)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division; Laptop required

CMGT 198 Special Topics
Prerequisite: Department permission.
Typically Offered: Fall and spring
This course is for special topics offered for 1.0-3.0 units. Typically the topic is offered on a one-time-only basis and may vary from term to term and be different for different sections. See the Class Schedule for the specific topic being offered. 3 hours supervision. (002060)
Grade Basis: Graded
Repeatability: You may take this course more than once
Course Attributes: Lower Division

CMGT 210 Analysis of Construction Drawings and Specifications
Prerequisite: CMGT 110, CMGT 135 both with a grade of C or higher.
Typically Offered: Fall and spring
This course includes a detailed and interactive study of construction drawings and specifications. Software is utilized to aid in understanding the plans and specifications and extract key project information with emphasis on material quantity takeoff. 2 hours activity, 2 hours discussion. (002058)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division; Laptop required

CMGT 235 Electrical and Mechanical Systems
Prerequisite: CMGT 210 with a grade of C or higher for CMGT majors; EECE 211 and EECE 211L or EECE 215 with a grade of C- or higher for non-CMGT majors.
Typically Offered: Fall and spring
This course includes an introduction to mechanical, electrical, and plumbing systems; integration of these systems into the building design and construction process; with an emphasis on sustainability. 3 hours discussion. (002059)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division; Laptop required

CMGT 275W Architectural History (W)
Typically Offered: Fall and spring
This course presents a study of architectural history with an emphasis on contemporary projects. 3 hours discussion. (021203)
General Education: Arts (C1)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division; Writing Course
## CMGT 330 Soil Mechanics, Concrete, and Construction Surveying

**Surveying** 3 Units

**Prerequisite:** CHEM 107 or CHEM 111, CMGT 210 (with a grade of C or higher), MATH 120 (with a grade of C- or higher), PHYS 202A or PHYS 204A.

**Typically Offered:** Fall and spring

This course includes a study of the properties and behaviors of soils, aggregates, and concrete when used as construction materials. Introduction to concrete including mix design, slump tests, and compressive strength. Fundamentals of surveying including staking, layout, and elevation control. 2 hours discussion, 3 hours laboratory. (002063)

**Grade Basis:** Graded

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Upper Division; Laptop required

---

## CMGT 332 Construction Method Analysis

**Construction Method Analysis** 3 Units

**Prerequisite:** GE Oral Communication (A1) requirement; CMGT 210, CMGT 235 both with a grade of C or higher.

**Typically Offered:** Fall and spring

This course analyzes methods and techniques of a construction project in a multi-team planning environment. Using Building Information Modeling, students analyze constructability through jobsite logistics, clash detection, log books, and short term resource scheduling. Jobsite labor risk is studied with a focus on productivity tracking, analysis, methods improvement, and safety. 2 hours activity, 2 hours discussion. (002064)

**Grade Basis:** Graded

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Upper Division; Laptop required

---

## CMGT 335 Construction Equipment

**Construction Equipment** 3 Units

**Prerequisite:** CMGT 330, CIVIL 411, or faculty permission.

**Typically Offered:** Fall and spring

This course includes a study of the equipment used in the construction industry. Included are the types, capabilities, selection, purchase/lease/rent options, and balancing of equipment. 3 hours discussion. (002066)

**Grade Basis:** Graded

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Upper Division; Laptop required

---

## CMGT 350 Principles of Statics and Strength of Materials

**Principles of Statics and Strength of Materials** 3 Units

**Prerequisite:** MATH 120 (with a grade of C- or higher), PHYS 202A or PHYS 204A.

**Typically Offered:** Fall and spring

This course includes a study of applied engineering mechanics including forces, static equilibrium, and simple truss analysis. An emphasis is placed on the concepts and mathematical calculations of stress, strain, and deflection within structural elements encountered in construction. The rationale and factors of safety for sizing and design of these elements is reviewed. 3 hours discussion. (022067)

**Grade Basis:** Graded

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Upper Division; Laptop required

---

## CMGT 352 Electrical and Mechanical Construction Estimating

**Electrical and Mechanical Construction Estimating** 3 Units

**Prerequisite:** CMGT 235.

**Typically Offered:** Fall and spring

Costs dictated by the contract documents for the electrical and mechanical systems in residential, commercial, industrial, specialty, and line construction projects are studied. 2 hours discussion, 2 hours laboratory. (002073)

**Grade Basis:** Graded

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Upper Division; Laptop required

---

## CMGT 360W Construction Project Management (W)

**Construction Project Management (W)** 3 Units W

**Prerequisite:** GE Oral Communication (A1) requirement, GE Written Communication (A2) requirement, ACCT 201, CMGT 210 (with a grade of C or higher).

**Typically Offered:** Fall and spring

This course reinforces the construction project life-cycle from conception through completion. The processes to effectively manage a construction project are introduced and practiced, including: project delivery systems and contracts, pre-construction services, construction safety practices, RFI's and submittals, quality control processes, cost control, project closeout, and commissioning. 3 hours lecture. (020325)

**Grade Basis:** Graded

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Upper Division; Laptop required; Writing Course

---

## CMGT 380 Green Building Practices and LEED Certification

**Green Building Practices and LEED Certification** 3 Units

**Typically Offered:** Fall only

This course explores how new buildings are designed and constructed using green building strategies. Students learn how LEED Accredited Professionals manage the building certification process and the requirements for LEED certification are met. The course also prepares students to take the USGBC LEED AP Certification exam. 3 hours lecture. (020504)

**Grade Basis:** Graded

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Upper Division; Laptop required; Writing Course

---

## CMGT 385 Concepts of Sustainable Construction

**Concepts of Sustainable Construction** 3 Units

**Prerequisite:** CMGT 235 with a grade of C or higher.

**Typically Offered:** Fall and spring

This course evaluates green building techniques, sustainable practices, and Lean Construction throughout the entire project life cycle. Students are introduced to the various requirements for green building rating systems and certifications. Content is provided to assist students in their self-study to take the LEED Green Associate exam. 3 hours lecture. (022068)

**Grade Basis:** Graded

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Upper Division; Sustainable Course; Laptop required

---

## CMGT 389 Internship in Construction Management

**Internship in Construction Management** 3 Units

**Prerequisite:** Department Permission.

**Typically Offered:** Spring, summer, fall

This course requires the student to do one summer internship for a minimum of 10 weeks with an approved heavy construction company. 3 hours lecture. (002062)

**Grade Basis:** Credit/No Credit

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Upper Division

Graduation Writing Assessment
**CMGT 462 Construction Contracts**  
Prerequisite: CMGT 460W.  
Typically Offered: Fall and spring  
This course reviews current contracting systems and documents utilized for construction contracts. Students examine and analyze the US Department of Labor Laws and the California Labor Code as these laws pertain to construction labor contracts, employment regulations, workers’ compensation, and safety. 3 hours lecture. (021409)  
Grade Basis: Graded  
Repeatability: You may take this course for a maximum of 6 units  
Course Attributes: Upper Division; Laptop required

**CMGT 485 Construction Management Competition**  
Typically Offered: Fall and spring  
This course prepares interested students for regional and national construction management competitions sponsored by the Associated Schools of Construction, National Association of Home Builders, Associated Builders Contractors, and other competition sponsors. Areas of preparation include construction management business and cost management, contracts, plan reading, specifications, estimating, scheduling, equipment, safety, team building, leadership, and presentation skills. 3 hours lecture. (020396)  
Grade Basis: Graded  
Repeatability: You may take this course for a maximum of 6 units  
Course Attributes: Upper Division

**CMGT 489 Const Mgmt Cooperative Ed**  
Prerequisite: CMGT 210, 60 units within the CMGT major, faculty permission.  
Typically Offered: Fall and spring  
This course is an internship offered for 1.0-3.0 units. You must register directly with a supervising faculty member. This program is designed to provide the student with management and administrative experiences within the construction industry. 3 hours lecture. (002074)  
Grade Basis: Graded  
Repeatability: You may take this course for a maximum of 15 units  
Course Attributes: Upper Division

**CMGT 498 Special Topics in Const Mgmt**  
Typically Offered: Fall and spring  
This course is for special topics offered for 1.0-3.0 units. Typically the topic is offered on a one-time-only basis and may vary from term to term and be different for different sections. See the Class Schedule for the specific topic being offered. 3 hours discussion. (002082)  
Grade Basis: Graded  
Repeatability: You may take this course more than once  
Course Attributes: Upper Division

**CMGT 499 Special Problems**  
Prerequisite: Faculty permission.  
Typically Offered: Fall and spring  
This course is an independent study of special problems offered for 1.0-3.0 units. You must register directly with a supervising faculty member. 3 hours supervision. (002083)  
Grade Basis: Credit/No Credit  
Repeatability: You may take this course for a maximum of 6 units  
Course Attributes: Upper Division

**CMGT 499H Honors Project in Construction Management**  
Prerequisite: Admission to the department’s Honors in the Major program; CMGT 460HW with a grade of B or higher; faculty permission.  
Typically Offered: Fall and spring  
Open by invitation to construction management majors who have a GPA of 3.5 or higher. The culminating work of this course will be the written and oral presentation of a project of value in the field of construction management. 9 hours supervision. (002084)  
Grade Basis: Graded  
Repeatability: You may take this course for a maximum of 3 units  
Course Attributes: Upper Division

**CMGT 697 Independent Study**  
Typically Offered: Fall and spring  
This course is a graduate-level independent study offered for 1.0-3.0 units. You must register directly with a supervising faculty member. 9 hours supervision. (002086)  
Grade Basis: Report in Progress: Graded  
Repeatability: You may take this course for a maximum of 6 units  
Course Attributes: Graduate Division

**CMGT 698 Advanced Topics in Const Mgmt**  
Prerequisite: Department permission.  
Typically Offered: Inquire at department  
This course is for special topics offered for 1.0-3.0 units. Typically the topic is offered on a one-time-only basis and may vary from term to term and be different for different sections. See the Class Schedule for the specific topic being offered. 9 hours supervision. (002085)  
Grade Basis: Graduate Graded  
Repeatability: You may take this course for a maximum of 6 units  
Course Attributes: Graduate Division

**CMGT 699P Master's Project**  
Prerequisite: Department permission.  
Typically Offered: Fall and spring  
You must register directly with a supervising faculty member. 3 hours supervision. (002089)  
Grade Basis: Report in Progress: CR/NC  
Repeatability: You may take this course for a maximum of 6 units  
Course Attributes: Graduate Division

**CMGT 699T Master's Thesis**  
Typically Offered: Fall and spring  
3 hours supervision. (002087)  
Grade Basis: Report in Progress: CR/NC  
Repeatability: You may take this course for a maximum of 6 units  
Course Attributes: Graduate Division
