EARTH AND ENVIRONMENTAL SCIENCES (ERTH)

See Course Description Symbols and Terms (https://catalog.csuchico.edu/academic-standards-policies/course-description-symbols-terms/) for an explanation of course description terminology and symbols, the course numbering system, and course credit units.

ERTH 101  Our Changing Planet  3 Units  GE
Typically Offered: Fall and spring
Earth materials, processes, and history, and their significance to humans in California and societies around the world. No college credit for students who have passed ERTH 102. 2 hours activity, 2 hours lecture. (004067)
General Education: Laboratory Activity (B3); Physical Science (B1)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division; Sustainable Course

ERTH 102  Physical Geology  3 Units  GE
Prerequisite: High school chemistry or physics is recommended; students with no previous science courses are advised to enroll in ERTH 101. No college credit for those who have passed ERTH 101.
Typically Offered: Fall and spring
Physical and chemical processes in the earth, including origin and identification of rocks and minerals; earth's interior; movements and major features of the earth's crust; erosion and sedimentation; geological structures; topographic maps; mineral resources. 3 hours laboratory, 2 hours lecture. (004069)
General Education: Laboratory Activity (B3); Physical Science (B1)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division; Sustainable Course

ERTH 104  Inquiry into the Science of Climate Change  3 Units  GE
Typically Offered: Fall and spring
An experiential course that develops skills in critical thinking through inquiry into and analysis of arguments about climate change science (e.g. greenhouse effect, fossil fuels, evidence for human-caused global warming, predictions of our climate future, climate change solutions, etc.). 3 hours lecture. (021130)
General Education: Critical Thinking (A3)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division

ERTH 110  Oceanography  3 Units  GE
Typically Offered: Fall and spring
Introduction to the ocean environment with a special emphasis on exploring the interactions between the geological, physical, chemical and biological processes. Topics include how ocean basins developed and changed over geological time scales and how the properties of seawater are linked and provide the foundation for marine life, motion, and climate. 2 hours activity, 2 hours lecture. (021716)
General Education: Laboratory Activity (B3); Physical Science (B1)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division

ERTH 130  Introduction to Environmental Science  3 Units  GE
Typically Offered: Fall and spring
An introduction to human impact upon planet Earth. Scientific principles applied to air pollution, water pollution, and solid and radioactive waste problems. Population dynamics, world hunger, and environmental issue analysis are also covered. 2 hours activity, 2 hours lecture. (004131)
General Education: Laboratory Activity (B3); Physical Science (B1)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division; Sustainable Course

ERTH 165  Principles of Environmental Science  2 Units
Typically Offered: Fall only
An introduction to environmental science as an integrative field of study and its parent disciplines. Field and laboratory techniques are introduced through examination of case studies. Students learn about the various professions engaged in environmental and resource management. 3 hours laboratory, 1 hour lecture. (020687)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 2 units
Course Attributes: Lower Division; Sustainable Course

ERTH 170  Atmospheric Science  3 Units
Typically Offered: Spring only
Composition and mean vertical structure of the atmosphere, energy and warming and cooling of the atmosphere and the surface, atmospheric water vapor, cloud types, static stability, the formation of clouds, precipitation, air pressure, and wind. 3 hours lecture. (004130)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division

ERTH 198  Special Topics  1-3 Units
Prerequisite: Department permission.
Typically Offered: Fall and spring
This course is for special topics. Typically the topic is offered on a one-time-only basis and may vary from term to term and be different for different sections. See the Class Schedule for the specific topic being offered. 3 hours discussion. (004136)
Grade Basis: Graded
Repeatability: You may take this course more than once
Course Attributes: Lower Division

ERTH 199  Special Problems  1-3 Units
Prerequisite: Faculty permission.
Typically Offered: Fall and spring
This course is an independent study of special problems. 9 hours supervision. (020352)
Grade Basis: Credit/No Credit
Repeatability: You may take this course for a maximum of 6 units
Course Attributes: Lower Division

ERTH 203  Evolution of the Earth  3 Units
Prerequisite: GE Physical Sciences (B1) requirement.
Typically Offered: Fall only odd years
Study of the Earth as an evolving planet from its nebular origin through plate tectonics and the spread of life forms. 3 hours laboratory, 2 hours lecture. (004070)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division

ERTH 201  Evolution of the Earth  2 Units
Typically Offered: Fall and spring
Introduction to the ocean environment with a special emphasis on exploring the interactions between the geological, physical, chemical and biological processes. Topics include how ocean basins developed and changed over geological time scales and how the properties of seawater are linked and provide the foundation for marine life, motion, and climate. 2 hours activity, 2 hours lecture. (021716)
General Education: Laboratory Activity (B3); Physical Science (B1)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division
ERTH 265  Soils and Surficial Processes  3 Units
Prerequisite: CHEM 111 (may be taken concurrently); ERTH 101, ERTH 102, ERTH 165 or SCED 343 (may be taken concurrently).
Typically Offered: Fall only
In-depth survey of the hydrologic cycle, and soil systems. Interactions between these systems are examined through case studies. 3 hours laboratory, 2 hours lecture.  (020723)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Lower Division; Sustainable Course

ERTH 289  Geoscience Internship  1-3 Units
Typically Offered: Fall and spring
This course is an internship. You must register directly with a supervising faculty member. 9 hours supervision.  (021015)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 15 units
Course Attributes: Lower Division

ERTH 299  Special Problems  1-3 Units
Prerequisite: Faculty permission.
Typically Offered: Fall and spring
This course is an independent study of special problems. 9 hours supervision.  (020353)
Grade Basis: Credit/No Credit
Repeatability: You may take this course for a maximum of 6 units
Course Attributes: Lower Division

ERTH 300W  Earth System Science (W)  3 Units, W, GW
Prerequisite: GE Written Communication (A2) requirement; CHEM 107 or CHEM 111; PHYS 202A or PHYS 204A or PHYS 341.
Typically Offered: Fall only
An intermediate treatment of astronomy, meteorology, and oceanography, with emphasis on climate change and its impacts. 3 hours discussion.  (004137)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course; Writing Course; Graduation Writing Assessment

ERTH 303  Invertebrate Paleontology  3 Units
Prerequisite: ERTH 102 or course in Biology.
Typically Offered: Spring only
Study of main groups of invertebrate fossils and their uses in biostratigraphy, paleobiogeography, and paleoecology. 3 hours laboratory, 2 hours lecture.  (004138)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 304  Atmospheric Science II  3 Units
Prerequisite: ERTH 170.
Typically Offered: Fall only every even years
Air masses and fronts, midlatitudes cyclones, weather and climate prediction, severe weather including thunderstorms, tornadoes, and hurricanes, climate and global climate change, and air pollution. 3 hours lecture.  (022010)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 306  Mineralogy and Lithology  4 Units
Prerequisite: ERTH 101 or ERTH 102; CHEM 107 or CHEM 111 or equivalent; or faculty permission.
Typically Offered: Fall only
Identification and origins of the more common minerals and rocks. 4 hours activity, 2 hours lecture.  (004080)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 4 units
Course Attributes: Upper Division

ERTH 307  Stratigraphy  3 Units
Prerequisite: ERTH 203 and ERTH 306 (both may be taken concurrently), or faculty permission.
Typically Offered: Fall only
Basic concepts of stratigraphy. Methods of strata description, correlation, mapping, and interpretation. Sedimentary tectonics and lithic associations. Graphic representation of data. 2 hours discussion, 3 hours laboratory.  (004081)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 310  Geological Field Reconnaissance  2 Units
Prerequisite: ERTH 101 or ERTH 102.
Typically Offered: Spring only
Faculty permission required to take the course a second time for credit. Generalized field study of geologically noteworthy areas. (Minimum of eight consecutive days in the field during January intersession or spring vacation; and additional work or classroom meetings.) 6 hours supervision.  (004083)
Grade Basis: Credit/No Credit
Repeatability: You may take this course for a maximum of 4 units
Course Attributes: Upper Division

ERTH 315  Pollution Science  3 Units
Prerequisite: CHEM 107 or CHEM 111; ERTH 265.
Typically Offered: Spring only
Principles and applications of major natural and anthropogenic pollution processes which include origins, transport, and sinks of contaminants in the environment. Topics include acid rain, mine waste and drainage, and agricultural pesticides. Environmental impacts, remediation and control of pollution are discussed. 3 hours laboratory, 2 hours lecture.  (020373)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division
ERTH 320 Water Equity and Power  3 Units GE
Prerequisite: GE Oral Communication (A1); GE Written Communication (A2); GE Critical Thinking (A3); GE Mathematics/Quantitative Reasoning (B4) requirements, or consent of the instructor.
Typically Offered: Fall and spring
California law mandates that every human has the right to safe, clean, affordable, and accessible water, yet inequities in water policy, resource allocation (quantities of water available), and water quality are prevalent throughout the state as well as globally. This course explores how water resource management (distribution and use of surface water and groundwater) is impacted by water law and policy, which in turn have critical equity issues associated with water supply and quality. Students examine the competing needs of industrial, agricultural, and residential water users in the context of economic impacts and pressures on the environment. The implications of water rights and key water policies are considered when evaluating how water is used. 3 hours lecture. (022290)
General Education: Upper-Division Scientific Inq/Quant Reason (UDB); Equity, Ethics, and Policy Pathway; Race, Ethnicity, and Sovereignty Pathway
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course

ERTH 321 Introduction to Meteorology  3 Units
Prerequisite: ERTH 170.
Typically Offered: Fall only
Survey of physical and dynamic meteorology. Topics covered include thermodynamics, radiation, clouds and precipitation formation, tropical and extratropical weather systems, forecasting, and climate change. 3 hours lecture. (004140)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 322 Mineral Resources  3 Units
Prerequisite: ERTH 102 or equivalent.
Typically Offered: Fall and spring
Where do the 82 elements in our cell phones come from? Why do we see the scars of historical mining across the landscape of northern California? What is acid mine drainage and how can we prevent or treat it? These questions and more are addressed in this course, which explores the mineral resources available on Earth, and the environmental impacts associated with their extraction and use. There are positive and negative aspects to the extraction and use of each resource, and we strive to consider the economic, societal, and political aspects of these topics in addition to the environmental aspects in order to gain a more rounded perspective. 3 hours laboratory, 2 hours lecture. (022042)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 325 Geology of California  3 Units
Prerequisite: ERTH 101 or ERTH 102.
Typically Offered: Spring only even years
Geologic setting of California and historical development of its geologic provinces. The impact of earthquakes, volcanic activity, coastal erosion, and earth resources on California. Field trip required. 3 hours discussion. (004085)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 330 Environmental Science  3 Units GE
Prerequisite: GE Oral Communication (A1); GE Written Communication (A2); GE Critical Thinking (A3); GE Life Sciences (B2); GE Mathematics/Quantitative Reasoning (B4) requirements, or consent of the instructor.
Typically Offered: Fall only
Human impact on life-support systems; use of physical and ecological principles in environmental management and protection; discussion of land use and its environmental impact; and an evaluation of human influence on natural cycles. 3 hours lecture. (004141)
General Education: Upper-Division Scientific Inq/Quant Reason (UDB); Sustainability and Climate Change Pathway
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course

ERTH 330W Environmental Science (W)  3 Units GE, W
Prerequisite: GE Oral Communication (A1); GE Written Communication (A2); GE Critical Thinking (A3); GE Physical Sciences (B1); GE Life Sciences (B2); GE Mathematics/Quantitative Reasoning (B4) requirements, or consent of the instructor.
Typically Offered: Fall and spring
Human impact on life-support systems; use of physical and ecological principles in environmental management and protection; discussion of land use and its environmental impact; and an evaluation of human influence on natural cycles. 3 hours lecture. (021331)
General Education: Upper-Division Scientific Inq/Quant Reason (UDB); Sustainability and Climate Change Pathway
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course; Writing Course

ERTH 340 Sustainability of Marine Environments: The Fate between People and the Sea  3 Units GE
Prerequisite: GE Oral Communication (A1); GE Written Communication (A2); GE Critical Thinking (A3); GE Mathematics/Quantitative Reasoning (B4) requirements, or consent of the instructor.
Typically Offered: Fall and spring
In this course, students learn what is necessary to become good stewards of the ocean ecosystem. Discussions of stewardship focus on the importance of sustainable ocean management and explore how competing interests among countries impact international plans to use and manage ocean resources. In addition to this top-down approach of ocean management, this course also examines the role of individual responsibility for preservation of the ocean environment, as well as justice issues for marginalized communities who rely on the ocean. During these discussions, students also learn how the physio-chemical properties of seawater (i.e., temperature, density, salinity, sounds, light) are linked and provide the foundation for marine life, motion (i.e., currents, tides, waves, transportation), energy, and climate. 3 hours lecture. (022925)
General Education: Upper-Division Scientific Inq/Quant Reason (UDB); Sustainability and Climate Change Pathway
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course
ERTH 341 Teaching Practicum in Geological and Environmental Sciences 3 Units
Prerequisite: ERTH 102 or SCED 342.
Typically Offered: Inquire at department
This course provides students with classroom experience that utilizes a variety of interactive, engaging teaching styles that develop and reinforce skills and concepts through open-ended activities such as direct instruction, discourse, demonstrations, individual and cooperative learning explorations, peer instruction, and student-centered discussion. 9 hours supervision. (020329)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 342 Concepts in Earth and Space Science 3 Units
Prerequisite: SCED 141, SCED 142, GE Physical Sciences (B1), or GE Life Sciences (B2). Open to Liberal Studies online students only.
Typically Offered: Fall and spring
This course is for future elementary/middle school teachers and designed to meet the Elementary Subject Matter Standards required by the California Commission on Teacher Credentialing. The overall goal is to provide a learning environment that fosters content knowledge and interest in teaching earth and space science and appreciation for the role that science plays in our everyday lives. 3 hours lecture. (022004)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 352 Recovery of Altered Ecosystems 3 Units
Prerequisite: BIOL 350W (may be taken concurrently), ERTH 265 and ERTH 315 (may be taken concurrently).
Typically Offered: Spring only
This course provides students with an understanding of the role of stresses and disturbances in aquatic and terrestrial ecosystems and natural processes of recovery. Students are introduced to the practices used to modify, restore, and remediate ecosystems altered by human activities and develop a restoration program for a nearby, altered ecosystem that contains both land and water components. In addition, we discuss policy and regulations as they relate to specific projects. 3 hours laboratory, 2 hours lecture. (021925)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 353 Environmental Fluid Mechanics 3 Units
Prerequisite: MATH 109 or MATH 120; PHYS 202A or PHYS 204A.
Typically Offered: Fall only odd years
Fluids (gases and liquids) are ubiquitous and play central roles in shaping the environment and transporting heat, momentum, pollutants, and constituents that support life and control climate. This course provides students with an introduction to fundamental concepts in fluid mechanics and an illumination of the vital and fascinating, and often non-intuitive, world of fluid phenomena. 3 hours lecture. (022002)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 355 Natural Disasters 3 Units GE
Prerequisite: GE Oral Communication (A1); GE Written Communication (A2); GE Critical Thinking (A3); GE Physical Sciences (B1), GE Life Sciences (B2); GE Mathematics/Quantitative Reasoning (B4) requirements, or consent of the instructor.
Typically Offered: Fall and spring
The purpose of this course is to provide students with the material and opportunity to learn the science behind geological and natural disasters and gain an appreciation of how these events shape both our lives and the development of societies with specific reference to California. The course focuses on, but not be limited to, a discussion of how much of a disaster is a natural phenomenon and how much a tragedy is imposed by the designs of populations. Along the way, we develop the methodology of science and build writing and quantitative skills. 3 hours lecture. (004148)
General Education: Upper-Division Scientific Ing/Quant Reason (UDB); California Studies Pathway; Sustainability and Climate Change Pathway
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course

ERTH 360 Field Methods 2 Units
Prerequisite: ERTH 306, ERTH 307 with a grade of C- or higher.
Typically Offered: Spring only
Elementary geologic field methods, descriptive geometry, photogeology, and geologic mapping. Ten days in the field during January intersession. 6 hours laboratory. (004074)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 2 units
Course Attributes: Upper Division

ERTH 361W Preparation of the Geological Report (W) 1 Unit W, GW
Prerequisite: GE Written Communication (A2) requirement.
Corequisites: ERTH 360.
Typically Offered: Spring only
This course is a continuation of the writing experience that is initiated in ERTH 360. It deconstructs scientific writing through a re-writing of the ERTH 360 field report and analysis of other examples of geologic articles. 1 hour lecture. (004075)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 1 unit
Course Attributes: Upper Division; Writing Course; Graduation Writing Assessment

ERTH 370W Energy in the Human Environment (W) 3 Units W, GW
Prerequisite: GE Written Communication (A2) requirement; ERTH 170 (may be taken concurrently) or ERTH 306; and PHYS 202A or PHYS 204A (may be taken concurrently).
Typically Offered: Fall only
Analysis of present and long-term global energy crises; coverage of scientific concepts needed to understand energy and its environmental interactions; in-depth examination of alternative energy sources and their environmental impact. 3 hours lecture. (004149)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course; Writing Course; Graduation Writing Assessment
ERTH 375 Geology of Food and Health 3 Units GE
Prerequisite: GE Oral Communication (A1); GE Written Communication (A2); GE Critical Thinking (A3); GE Mathematics/Quantitative Reasoning (B4) requirements, or consent of the instructor.
Typically Offered: Fall and spring
Focuses on the relation between natural geological factors, food production, and health problems in humans and animals on a global scale, and explores the impacts of diverse proposed solutions on population health and public policy. 3 hours lecture. (021128)

General Education: Upper-Division Scientific Inq/Quant Reason (UDB); Agriculture, Food, and Environment Pathway
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 380 Hydrology 3 Units
Prerequisite: PHYS 202A or PHYS 204A (may be taken concurrently).
Typically Offered: Fall only
A survey of the mass transfer processes and storage elements within the hydrologic cycle: precipitation, interception, surface runoff, infiltration, evapo-transpiration, soil water and groundwater. Quantitative methods for estimating flow and storage, use of probability concepts to predict extreme hydrologic events in a time series. 3 hours laboratory, 2 hours lecture. (004150)

Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course

ERTH 382 Hydrologic Field Methods 3 Units
Prerequisite: ERTH 380 (may be taken concurrently) or faculty permission.
Typically Offered: Spring only
Develops field and related laboratory skills in performing common measurements in surface water and soil water components of the hydrologic cycle. Students learn to critically evaluate the theoretical basis for field methods and hydrologic characterization approaches. 3 hours lecture. (020641)

Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course

ERTH 398 Special Topics 1-4 Units
Prerequisite: Department permission.
Typically Offered: Fall and spring
This course is for special topics. Typically the topic is offered on a one-time-only basis and may vary from term to term and be different for different sections. See the Class Schedule for the specific topic being offered. 3 hours discussion. (004092)

Grade Basis: Graded
Repeatability: You may take this course more than once
Course Attributes: Upper Division

ERTH 399 Special Problems 1-3 Units
Prerequisite: Faculty permission.
Typically Offered: Fall and spring
This course is an independent study of special problems. 3 hours supervision. (004154)

Grade Basis: Credit/No Credit
Repeatability: You may take this course for a maximum of 6 units
Course Attributes: Upper Division

ERTH 403 Igneous and Metamorphic Petrology 4 Units
Prerequisite: ERTH 306 with grade of C- or higher.
Typically Offered: Spring only
Physical-chemical development and geotectonic settings of igneous and metamorphic rocks. Analysis of rock thin sections. Field trip required. 4 hours activity, 2 hours lecture. (004097)

Grade Basis: Graded
Repeatability: You may take this course for a maximum of 4 units
Course Attributes: Upper Division

ERTH 408 Structural Geology 4 Units
Prerequisite: High school or college trigonometry; ERTH 203; ERTH 307 with grade of C- or higher.
Typically Offered: Fall only
Behavior of geologic materials. Folds, faults, small-scale structures in sedimentary, igneous, and metamorphic rocks. Graphic methods. 4 hours activity, 2 hours lecture. (004082)

Grade Basis: Graded
Repeatability: You may take this course for a maximum of 4 units
Course Attributes: Upper Division

ERTH 410 Introduction to Watershed Hydrology 3 Units
Prerequisite: ERTH 380 or prior hydrology course work and consent of instructor.
Typically Offered: Spring only
A survey of the hydrologic processes governing the movement and storage of water at the watershed scale. Emphasis is on computer-based methods for characterizing the physical framework and quantifying the resultant hydrology in terms of its temporal and spatial variability. 3 hours laboratory, 2 hours lecture. (004161)

Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course

ERTH 415 Hydrogeology 3 Units
Prerequisite: CHEM 111, ERTH 306, ERTH 380, MATH 120; PHYS 202A or PHYS 204A. Recommended: ERTH 307.
Typically Offered: Spring only
Theory and analysis of groundwater flow, including fluid physics, aquifer properties, soil water, groundwater recharge, hydrogeologic environments, aquifer mechanics, and water quality degradation. 3 hours laboratory, 2 hours lecture. (004102)

Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course

ERTH 420 Earth Systems Modeling 3 Units
Prerequisite: BIOL 350W; CHEM 107 or CHEM 111; ERTH 102, ERTH 170, ERTH 265; PHYS 202A, PHYS 204A, or PHYS 341.
Typically Offered: Spring only
This course will seek to understand fundamental earth system processes and interactions on a global scale. Particular emphasis is placed on climate change and its impacts. 3 hours lecture. (021924)

Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

Earth and Environmental Sciences (ERTH)
ERTH 425 Surficial Processes  3 Units
Prerequisite: ERTH 101 or ERTH 102; MATH 120; PHYS 202A or PHYS 204A.
Typically Offered: Fall only odd years
A survey of the processes governing uplift and denudation of landscapes, including isostasy, chemical and physical weathering, mass movements, surface water erosion, formation of channels, and flow and sediment transport. 3 hours laboratory, 2 hours lecture. (004152)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course

ERTH 430 Wetland Ecology and Management  3 Units
Prerequisite: Upper division standing in BS Environmental Science, BA Biological Sciences, BS Biological Sciences, BS Microbiology, BA Geography, or BS Agriculture. Highly recommended: BIOL 161 and/or BIOL 350W.
Typically Offered: Fall only even years
This course examines the ecology, management, and restoration of wetland ecosystems, including biotic and abiotic processes, functions, wildlife and policy discussions. We place emphasis on biological, physical, chemical, and ecological aspects of major wetland ecosystems found in North America. We also discuss ecosystem services, wetland classification/delineation, legal protection of wetlands, and the relationship between wetlands and climate change. 3 hours laboratory, 2 hours lecture. (022003)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 435 Boundary Layer Meteorology  3 Units
Prerequisite: MATH 109 or MATH 120; PHYS 202A or PHYS 204A.
Typically Offered: Spring only
The atmospheric boundary layer (ABL) is the lowest part of the Earth’s atmosphere that is in constant contact with the surface of the Earth and responds quickly to the thermal and mechanical forcings. The ABL has a very strong role in the vertical fluxes of heat, momentum, and trace gases. Turbulence is the main physical process by which those fluxes occur and hence statistical descriptions are the norm. Therefore, this course focuses on small scale meteorology (also know as micrometeorology), turbulence, and the behavior of the atmosphere near the surface. 3 hours lecture. (022043)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 436 Volcanology  3 Units
Prerequisite: ERTH 101 or ERTH 102, ERTH 306, or faculty permission.
Typically Offered: Spring only odd years
An introduction to physical processes associated with terrestrial and extraterrestrial volcanoes and their products. Specific topics include volcano monitoring, rheologic properties of magma and volcanic flows, experimental volcanology, theoretical and analog flow modeling, as well as in-depth examination of local volcanoes and various eruptions (past, present, and future). This course includes an extended (4-5 days) field trip, required for all students. Students participate in the field by collecting data for future course projects, presenting prepared information at various field trip stops, or both. Students also complete research projects throughout the semester. 3 hours lecture. (020239)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 440 Environmental Sensing  3 Units
Prerequisite: PHYS 202B, PHYS 204B, or PHYS 204C (may be taken concurrently).
Typically Offered: Fall only
Instruments are critical to making quantitative observations, and observations are critical to the scientific method. The subject of environmental instrumentation is vast and constantly changing as new technologies emerge. Through a combination of lectures and hands-on projects, students are (1) introduced to the process of assembling and characterizing an electronic instrument of their own, (2) forming a hypothesis and testing it by collecting data, and (3) writing reports and giving presentations on their results. 3 hours laboratory, 2 hours lecture. (020639)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 445 Sedimentary Basin Analysis  3 Units
Prerequisite: ERTH 307, ERTH 403 (may be taken concurrently) both with a grade of C- or higher.
Typically Offered: Spring only even years
Study of the paleographic evolution of sedimentary basins. Includes stratigraphic and paleontologic correlation, facies analysis, sedimentary petrology, depositional systems, and the tectonic framework of sedimentary basins. 3 hours laboratory, 2 hours lecture. (004114)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 460 Water Resources Management  3 Units
Prerequisite: ERTH 380 (may be taken concurrently).
Typically Offered: Spring only even years
Water-resources, management plans of world; emphasis on California and Israeli plans. Water plans in primitive, agrarian, and industrial societies. Data gathering and interpretation, regulation of water resources, and control of water pollution. 3 hours lecture. (004168)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course

ERTH 470 Renewable Energy  3 Units
Prerequisite: ERTH 370W.
Typically Offered: Fall only odd years
Teach students about the wide range of renewable energy technologies that are available, how they harvest energy from the environment, how they impact the environment, and their varying degrees of competitiveness with fossil fuels. Major forms of renewable energy covered include solar thermal, solar photovoltaics, bioenergy, hydroelectricity, tidal power, wind energy, wave energy, and geothermal energy. Students also gain experience reading, researching, and presenting findings. 3 hours lecture. (021766)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division
ERTH 471  Field Geology  2 Units
Prerequisite: ERTH 360, ERTH 403, ERTH 408 all with grade of C- or higher.
Typically Offered: Spring only
Mapping, recording, and interpreting data in the field; use of Brunton compass and topographic maps emphasized. Reports required. Field work during January Intersession totaling at least 10 days. 6 hours laboratory. (004105)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 2 units
Course Attributes: Upper Division

ERTH 475  Senior Seminar  3 Units
Prerequisite: Senior standing in Environmental Science.
Typically Offered: Spring only
This seminar provides a culminating experience for students to draw on their accumulated content knowledge and skills to address one or more environmental problems. Select problems addressed by students working in interdisciplinary teams. Project plans and timelines described in individually-prepared proposals. Relevant policies and regulations indentified, and this guidance informs student projects. Existing comparative data employed and analyzed to develop project plans and reports. Computer skills employed, possibly including spreadsheets, statistical software, and GIS. 3 hours discussion. (004169)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 480  Seminar in Earth and Environmental Sciences  1 Unit
Prerequisite: Earth and Environmental Sciences (ERTH) majors only.
Typically Offered: Fall and spring
The seminar series engages students in recent research and developments in the Earth and Environmental Sciences, and develops skills in scientific literature retrieval. 1 hour seminar. (021562)
Grade Basis: Credit/No Credit
Repeatability: You may take this course for a maximum of 8 units
Course Attributes: Upper Division; Sustainable Course

ERTH 489  Geoscience Internship  1-3 Units
Typically Offered: Fall and spring
This course is an internship. You must register directly with a supervising faculty member. 9 hours supervision. (021016)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 15 units
Course Attributes: Upper Division

ERTH 499T  Internship in Geoscience Teaching  3 Units
Prerequisite: ERTH 101 or ERTH 102, ERTH 203.
Typically Offered: Fall and spring
This is a supervised internship in geoscience teaching which takes place in a local junior high or high school geoscience classroom, supervised by the classroom teacher and by a faculty member of the CSUC Department of Earth and Environmental Sciences. 9 hours supervision. (020620)
Grade Basis: Credit/No Credit
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division

ERTH 498  Special Topics  1-3 Units
Prerequisite: Department permission.
Typically Offered: Fall and spring
This course is for special topics. Typically the topic is offered on a one-time-only basis and may vary from term to term and be different for different sections. See the Class Schedule for the specific topic being offered. 3 hours discussion. (004172)
Grade Basis: Graded
Repeatability: You may take this course more than once
Course Attributes: Upper Division

ERTH 499  Special Problems  1-3 Units
Prerequisite: Faculty permission.
Typically Offered: Fall and spring
This course is an independent study of special problems. You must register directly with a supervising faculty member. 3 hours supervision. (004175)
Grade Basis: Credit/No Credit
Repeatability: You may take this course for a maximum of 6 units
Course Attributes: Upper Division

ERTH 499H  Honors Research in the Geosciences  3 Units
Prerequisite: First semester: 9 upper-division units in major, B average, faculty permission. Second semester: B or higher in first semester, faculty permission.
Typically Offered: Fall and spring
An intensive two-semester course in research within a subdiscipline of the physical sciences. Students enroll for 3 units each semester. Open only to students with at least a 3.0 GPA in the major. The course consists of a research project done under the supervision of a faculty member, a formal written paper, and a public presentation. This course may be used to fulfill a maximum of 3 units of the upper-division requirement for the major. 9 hours supervision. (004176)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 6 units
Course Attributes: Upper Division

ERTH 536  Applied Ecology  3 Units
Prerequisite: BIOL 350W, MATH 315.
Typically Offered: Spring only
Examination of the mechanisms, directions, and magnitude of an organism's or ecosystem's response to human perturbation. 3 hours discussion. (004166)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course

ERTH 537  Ecohydrology  3 Units
Prerequisite: BIOL 350W, ERTH 380, or instructor consent.
Typically Offered: Spring only odd years
The study of linkages between hydrologic processes and ecosystem functions; field methods for data gathering; hydrologic transport of nutrients and pollutants through ecosystems; case studies of problems in ecohydrology. 3 hours lecture. (020330)
Grade Basis: Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Upper Division; Sustainable Course

</tbody>
</table>
ERTH 654 Environmental Risk Assessment
Prerequisite: CHEM 270 or CHEM 320, MATH 120, PHYS 202B.
Recommended: BIOL 350W or BIOL 360.
Typically Offered: Spring only
The scientific basis of risk assessment in various sectors of human activity, with particular emphasis on business, industrial, governmental agency, and planning concerns. 3 hours lecture. (020467)
Grade Basis: Graduate Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Graduate Division

ERTH 655 Fossil Fuels
Prerequisite: ERTH 307 or faculty permission.
Typically Offered: Fall only even years
Geological principles and environmental impacts of exploring for and exploiting resources of petroleum, natural gas, oil shales, oil sands, coal, and coalbed-methane. Applications using geological data, potential sites for CO2 sequestration and environmental impact assessments are emphasized. This course involves the application of theory to new ideas, problems, and materials. 3 hours lecture. (004116)
Grade Basis: Graduate Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Graduate Division

ERTH 656 Environmental Sciences Capstone
Prerequisite: Completion of three semesters of coursework in either the Environmental Sciences MS program or the proposed PSM option of the Environmental Sciences MS program.
Typically Offered: Spring only
Overview of environmental science issues, including biological, chemical, and engineering examples. Particular focus is on future issues and approaches. Social and ethical issues are also examined. 9 hours supervision. (020465)
Grade Basis: Graduate Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Graduate Division

ERTH 660 Numerical Analysis
Prerequisite: MATH 120.
Typically Offered: Fall only
Survey and implementation of common numerical techniques in use in geoscientific data analysis, including multivariate data analysis, geostatistics, finite difference and finite element analyses, time-series analysis, and fractal geometry. 3 hours lecture. (004188)
Grade Basis: Graduate Graded
Repeatability: You may take this course for a maximum of 3 units
Course Attributes: Graduate Division

ERTH 670 Environmental and Engineering Geology
Prerequisite: ERTH 102, ERTH 203, ERTH 306. For majors in related sciences and technical fields, ERTH 102 only.
Typically Offered: Fall only odd years
Practical application of techniques to solve geological engineering and environmental problems. Techniques of surface investigations and remote sensing; borehole and surface geophysics; soil descriptions and properties; landslide mapping, mechanics and remediation, subsurface investigation of rock masses; mapping of discontinuities, establishing rock quality, tunneling techniques. Seismic studies; surface and trench mapping of faults, seismic risk analysis. Ground water monitoring, site assessment, techniques of hazardous waste cleanup, state and federal regulations on hazardous waste, siting of landfills. Students in this course apply these theories to new ideas. 3 hours lecture. (020467)
Grade Basis: Report in Progress: CR/NC
Repeatability: You may take this course for a maximum of 6 units
Course Attributes: Graduate Division
