

# PSYCHOLOGY (PSYC)

See Course Description Symbols and Terms (<https://catalog.csuchico.edu/academic-standards-policies/course-description-symbols-terms/>) for an explanation of course description terminology and symbols, the course numbering system, and course credit units.

---

## PSYC 100 Applications of Critical Thinking and Decision Making 3 Units GE

**Typically Offered:** Fall and spring

An examination of the role of critical thinking in daily life and scientific pursuits. Both inductive and deductive approaches to solving problems are utilized. Selected topics are investigated with an emphasis upon common logical fallacies in the interpretation of personal observations and empirical data. 3 hours lecture. (021166)

**General Education:** Critical Thinking (1B)

**Grade Basis:** Graded

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Lower Division

## PSYC 101 Principles of Psychology 3 Units GE

**Typically Offered:** Fall and spring

Introduction to concepts and problems in psychology. Topics include perception, learning, development, motivation, personality, abnormal behavior, and biological and social bases of behavior. 3 hours lecture. (007881)

**General Education:** Social and Behavioral Sciences (4)

**Grade Basis:** Graded

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Lower Division

## PSYC 110 Laboratory in Human Relations 1 Unit

**Typically Offered:** Fall and spring

This course is designed to give a beginning psychology student instruction and experiential training in the basic factors of constructive human relations. Only two units can be applied to meet graduation requirements. 1 hour discussion. (007883)

**Grade Basis:** Credit/No Credit

**Repeatability:** You may take this course for a maximum of 2 units

**Course Attributes:** Lower Division

## PSYC 151 Socio-Cultural Context of Psychological Development 3 Units

**Typically Offered:** Fall and spring

Examination of social and cultural influences on emotional, social, and intellectual development. Specific emphasis on children raised in lower socio-economic environments as well as children of American Indian, Mexican-American, and black cultures. 3 hours lecture. (007889)

**General Education:** Social and Behavioral Sciences (4)

**Grade Basis:** Graded

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Lower Division; US Diversity Course

## PSYC 152 Developmental Wellness 3 Units GE

**Typically Offered:** Fall and spring

The three major topics of this course are health, well being, and resilience. Students explore the relationship between physical and mental well being. The interrelationship between the well being of individuals and the well being of communities are examined. Plans for improving one's own health at different moments in the life course are made. 3 hours lecture. (021167)

**General Education:** Social and Behavioral Sciences (4)

**Grade Basis:** Graded

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Lower Division

## PSYC 198 Special Topics 1-3 Units

**Typically Offered:** Inquire at department

This course is for special topics offered for 1.0-3.0 units. Typically the topic is offered on a one-time-only basis and may vary from term to term and be different for different sections. See the Class Schedule for the specific topic being offered. Courses may be offered with activity or laboratory components. 3 hours lecture. (007899)

**Grade Basis:** Graded

**Repeatability:** You may take this course more than once

**Course Attributes:** Lower Division

## PSYC 261 Research Methods in Psychology 3 Units

**Prerequisite:** ENGL 130W or JOUR 130W (or equivalent) with a grade of C- or higher. Prerequisite or corequisite: PSYC 101.

**Typically Offered:** Fall and spring

Aspects of the psychological research process and research methods, including measurement and the quantitative description of behavior.

Topics also include hypothesis formation and testing, major research approaches to psychological phenomena, and the critical assessment of research. 3 hours lecture. (007898)

**Grade Basis:** Graded

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Lower Division

## PSYC 301W Navigating Psychology: The Major and Beyond (W) 3 Units W

**Prerequisite:** ENGL 130W or JOUR 130W (or equivalent), PSYC 101 (may be taken concurrently).

**Typically Offered:** Fall and spring

An overview of the academic landscape in psychology and career options for psychology majors, with an emphasis on skill development for academic and professional success, including professional writing in psychology. 3 hours lecture. (021866) **GE**

**Grade Basis:** Graded

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Upper Division; Writing Course

## PSYC 315 Environmental Psychology 3 Units

**Typically Offered:** Fall and spring

This course examines the social-psychological aspects of the interdependence of humans and their environment. The course emphasizes psychological theory and current research along with a practical focus on environmental issues. 3 hours lecture. (007971)

**Grade Basis:** Graded

**Repeatability:** You may take this course for a maximum of 3 units

**Course Attributes:** Upper Division; Sustainable Course

- PSYC 321 Brain, Mind, and Behavior** **3 Units GE**  
**Prerequisite:** GE English Composition (1A), GE Critical Thinking (1B), GE Oral Communication (1C), GE Mathematical Concepts/Quantitative Reasoning (2); or faculty permission.  
**Typically Offered:** Fall and spring  
 This course explores the fundamental relationships between brain function, mental states and consciousness, and human behavior. Attention is given to the influence of brain research on artificial intelligence, neural networks, and computer technology, and to the current metaphor of brain as computer. The course focus is on basic brain processes involved in sensation and perception, motivation and emotion, learning and memory, and language and consciousness. 3 hours lecture. (007919)  
**General Education:** Upper-Division Social Behavioral Sciences (UD4); Health and Wellness Pathway; Science, Technology, and Society Pathway  
**Grade Basis:** Graded  
**Repeatability:** You may take this course for a maximum of 3 units  
**Course Attributes:** Upper Division
- PSYC 323 Health Psychology** **3 Units**  
**Typically Offered:** Fall and spring  
 This course provides an introduction to the field of health psychology which is the field within psychology devoted to understanding psychological influences on how people stay healthy, why they become ill, and how they respond when they do get ill. Topics include a study of health psychology as a profession, the bio-psychosocial model of health, health belief models and human behavior, health-compromising and health-enhancing behaviors, cognitive-behavioral approaches to behavior change, stress and coping, personality and health, and psychological issues in heart disease, cancer, AIDS, and other diseases. 3 hours discussion. (007975)  
**Grade Basis:** Graded  
**Repeatability:** You may take this course for a maximum of 3 units  
**Course Attributes:** Upper Division
- PSYC 324 Biological Psychology** **4 Units**  
**Prerequisite:** ENGL 130W or JOUR 130W (or equivalent) with a grade of C- or higher, PSYC 101, PSYC 261.  
**Typically Offered:** Fall and spring  
 An introduction to basic processes involved in brain function and an overview of the biological bases of behaviors such as sleep, biological rhythms, sex, emotions, learning and memory, language, laterality, and psychophysiological states such as depression, anxiety disorders, and schizophrenia. The laboratory includes the study of neuroanatomy and experiments on topics such as EEG, GSR, biofeedback, hemisphere specialization, and cardiovascular reactivity. 3 hours laboratory, 3 hours lecture. (007901)  
**Grade Basis:** Graded  
**Repeatability:** You may take this course for a maximum of 4 units  
**Course Attributes:** Upper Division
- PSYC 333 Human Perception** **3 Units**  
**Typically Offered:** Fall and spring  
 A review of the major theories, phenomena, and research associated with the structure and function of the sensory and perceptual systems. Primary emphasis is on the visual and auditory systems, but gustation, olfaction, and skin perception are also reviewed. 3 hours lecture. (007985)  
**Grade Basis:** Graded  
**Repeatability:** You may take this course for a maximum of 3 units  
**Course Attributes:** Upper Division
- PSYC 334 Cognition** **3 Units**  
**Prerequisite:** ENGL 130W or JOUR 130W (or equivalent) with a grade of C- or higher, PSYC 101, PSYC 261, or faculty permission.  
**Typically Offered:** Fall and spring  
 An in-depth examination of current research and theory in cognition. Topics include attention, memory models, language, problem solving, creativity, reasoning, decision making, human and artificial intelligence, and cognitive development. 3 hours lecture. (007903)  
**Grade Basis:** Graded  
**Repeatability:** You may take this course for a maximum of 3 units  
**Course Attributes:** Upper Division
- PSYC 341 Cross-Cultural Psychology** **3 Units GC**  
**Typically Offered:** Fall and spring  
 This course focuses on the importance and various influences of culture on human behavior. Beginning with an examination of theoretical definitions of culture, the course covers a broad range of research that highlights the contributions of cross-cultural psychology to the understanding of human behavior within and between cultures. In addition, conceptual, methodological, and practical issues in cross-cultural research and applications are covered. 3 hours discussion. (005638)  
**Grade Basis:** Graded  
**Repeatability:** You may take this course for a maximum of 3 units  
**Course Attributes:** Upper Division; Global Cultures Course
- PSYC 345 Psychology of Women** **3 Units GE**  
**Prerequisite:** GE English Composition (1A), GE Critical Thinking (1B), GE Oral Communication (1C), GE Mathematical Concepts/Quantitative Reasoning (2); or faculty permission.  
**Typically Offered:** Fall and spring  
 Important issues, theories, and research related to the psychology of women are examined. Common stereotypes, myths, and typical societal expectations are explored in terms of biological, social, psychological, and development determinants. Additionally, the social construction of gender categories, female sexuality, victimization of women, mental health of women, and issues related to education, work, and family are examined. Information in this course should serve as a catalyst for constructive change by revealing deficiencies in psychological research and theories relevant to gender, sexuality, cultural, and ethnic issues. 3 hours lecture. (007907)  
**General Education:** Upper-Division Social Behavioral Sciences (UD4); Gender and Sexuality Pathway; Science, Technology, and Society Pathway  
**Grade Basis:** Graded  
**Repeatability:** You may take this course for a maximum of 3 units  
**Course Attributes:** Upper Division
- PSYC 353 Learning in the Young Child** **3 Units**  
**Typically Offered:** Fall and spring  
 Examination of psychological factors involved in the learning processes of children. 3 hours lecture. (007884)  
**Grade Basis:** Graded  
**Repeatability:** You may take this course for a maximum of 3 units  
**Course Attributes:** Upper Division
- PSYC 354 Psychology of Adulthood and Aging** **3 Units**  
**Typically Offered:** Fall only  
 An introduction to the psychological processes and phenomena associated with middle and older adulthood. 3 hours lecture. (004457)  
**Grade Basis:** Graded  
**Repeatability:** You may take this course for a maximum of 3 units  
**Course Attributes:** Upper Division

**PSYC 355 Survey of Child and Adolescent Psychology 3 Units****Typically Offered:** Fall and spring

Examination of the theories and empirical research relevant to physical, cognitive, emotional, and social development from the prenatal period through adolescence. Influences such as family, peers, gender, ethnicity, socioeconomic status, and media are also examined. The interaction between nature and nurture on developmental outcomes is interwoven throughout the course. 3 hours lecture. (007925)

**Grade Basis:** Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Upper Division**PSYC 364 Statistical Methods in Psychology 4 Units****Prerequisite:** ENGL 130W or JOUR 130W (or equivalent) with a grade of C- or higher, PSYC 101, PSYC 261.**Typically Offered:** Fall and spring

The analysis of research data in psychology using inferential statistical methods, with an emphasis on relevant statistical designs, understanding statistical conclusions in published research, and professional report writing. Descriptive statistics, graphing, hypothesis testing, correlation and regression, chi-square, t-tests, and analysis of variance. Single factor designs and ANOVA, post-hoc comparisons, repeated measures ANOVA, and simple factorial designs. Professional reporting of research. Laboratory provides examples, applications, and development of research data analysis and statistical evaluation skills. 3 hours laboratory, 3 hours lecture. (007904)

**Grade Basis:** Graded**Repeatability:** You may take this course for a maximum of 4 units**Course Attributes:** Upper Division**PSYC 381 Abnormal Psychology 3 Units****Typically Offered:** Fall and spring

Introduction to the study of psychopathology (or psychology disorders) with an emphasis on diagnostic criteria, assessment and testing, and treatment models. 3 hours lecture. (007939)

**Grade Basis:** Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Upper Division**PSYC 382 Psychology of Personality 3 Units****Typically Offered:** Fall and spring

Introduction to the nature and development of personality, with emphasis on the normal adult, including theories of personality, techniques of assessment, and a survey of current research. 3 hours lecture. (007944)

**Grade Basis:** Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Upper Division**PSYC 391 Psychology of Prejudice, Hate, and Violence 3 Units GE, USD****Prerequisite:** GE English Composition (1A), GE Critical Thinking (1B), GE Oral Communication (1C), GE Mathematical Concepts/Quantitative Reasoning (2); or faculty permission.**Typically Offered:** Fall and spring

Examination of the nature of prejudice and hate and their contribution to societal violence. How prejudice and hatred affect personal, family, and group behavior are considered in a context of understanding factors that contribute to their development. Strategies for reducing the prevalence of prejudice, hatred, and violence in our contemporary culture are evaluated. 3 hours lecture. (007908)

**General Education:** Upper-Division Social Behavioral Sciences (UD4); Race, Ethnicity, and Sovereignty Pathway**Grade Basis:** Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Upper Division; US Diversity Course**PSYC 393 Psychology of Romantic Relationships 3 Units****Typically Offered:** Fall and spring

The interrelationship of psychological, physiological, and cultural factors in romantic relationship development and family relations. 3 hours lecture. (007937)

**Grade Basis:** Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Upper Division**PSYC 395 Social Psychology 3 Units****Typically Offered:** Fall and spring

An overview of social psychology, emphasizing the variety of social factors that influence individual behavior including topics such as the self-serving bias, culture, persuasion, conformity, prejudice, aggression, and attraction. 3 hours lecture. (007952)

**Grade Basis:** Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Upper Division**PSYC 398 Contemporary Problems in Psy 1-3 Units****Typically Offered:** Inquire at department

This course is for special topics offered for 1.0-3.0 units. Typically the topic is offered on a one-time-only basis and may vary from term to term and be different for different sections. See the Class Schedule for the specific topic being offered. Courses may be offered with activity or laboratory components. 9 hours supervision. (007921)

**Grade Basis:** Graded**Repeatability:** You may take this course more than once**Course Attributes:** Upper Division**PSYC 398H Special Topics - Honors 1-3 Units****Prerequisite:** Department permission.**Typically Offered:** Inquire at department

This course is for special topics offered for 1.0-3.0 units. Typically the topic is offered on a one-time-only basis and may vary from term to term and be different for different sections. See the Class Schedule for the specific topic being offered. 3 hours seminar. (020428)

**Grade Basis:** Graded**Repeatability:** You may take this course for a maximum of 99 units**Course Attributes:** Upper Division

**PSYC 399 Special Problems****1-3 Units****Typically Offered:** Fall and spring

This course is an independent study of special problems and is offered for 1.0-3.0 units. You must register directly with a supervising faculty member. 9 hours supervision. (007922)

**Grade Basis:** Credit/No Credit**Repeatability:** You may take this course for a maximum of 6 units**Course Attributes:** Upper Division**PSYC 399HW Honors Seminar in Psychology I (W)** **3 Units W, GW****Prerequisite:** GE English Composition (1A), PSYC 101, PSYC 261, PSYC 364, and 9 units of other upper-division psychology courses.**Typically Offered:** Fall only

This course focuses on the development of a creative project in psychology, its presentation, discussion of relevant research materials, and the reporting of findings. Open only by invitation to students in the top 5% of the major. 9 hours supervision. (007991)

**Grade Basis:** Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Upper Division; Writing Course; Graduation Writing Assessment Requirement Course**PSYC 401W Capstone Seminar in Psychology (W)** **3 Units W, GW****Prerequisite:** GE English Composition (1A), PSYC 101, PSYC 261, PSYC 301W, PSYC 364, and three additional courses in the major.**Typically Offered:** Fall and spring

In this capstone course, students integrate different topics and perspectives, previously examined in the core and elective courses. This integration centers on important contemporary issues and problems in the discipline of psychology. After an in-depth examination of the issue, students generate solutions to problems, new lines of research or fusions of perspectives, depending upon the topic under investigation. Multiple sections are offered each semester, each focusing on a unique topic. Students in this seminar participate in advanced readings, writing, reporting, discussion, demonstration, oral presentation, and experiential components. 3 hours seminar. (007990)

**Grade Basis:** Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Upper Division; Writing Course; Graduation Writing Assessment Requirement Course**PSYC 414 Psychology of Teaching****3 Units****Typically Offered:** Fall and spring

Applications of principles of the psychology of human learning and development and counseling to educational practice. Prospective teachers analyze their motivations, personal value systems, role conceptualizations, and self-attitudes in relation to demands of the teaching profession. Concepts of emotional, social, and cognitive development as well as of childhood learning and motivation are applied to development of learning experiences for elementary school children. 3 hours seminar. (007900)

**Grade Basis:** Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Upper Division**PSYC 425 Neuropsychology****3 Units****Prerequisite:** PSYC 321 or PSYC 324 or any course which has covered basic brain anatomy, or faculty permission.**Typically Offered:** Fall only

Course examines the behavioral changes which accompany certain known damages to the human brain. Topics include the neuropsychology of language, emotions, memory, learning, movement, personality, aggression, cerebral dominance, neuropsychological assessment, clinical syndromes following head trauma and stroke, developmental learning disorders, and disorders of aging, including Alzheimer's Disease. 3 hours discussion. (007978)

**Grade Basis:** Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Upper Division**PSYC 463 History and Systems of Psychology****3 Units****Typically Offered:** Inquire at department

Development of psychology from ancient to modern times. Relationship of this development to twentieth-century systematic viewpoints in psychology. 3 hours lecture. (007986)

**Grade Basis:** Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Upper Division**PSYC 466 Elements of Learning and Behavior****3 Units****Prerequisite:** GE English Composition (1A), PSYC 101, PSYC 261.**Typically Offered:** Fall and spring

An examination of the principles of learning and the environmental determinants of behavior change, emphasizing fundamental mechanisms such as habituation, sensitization, classical conditioning, and operant conditioning, as well as applications of those mechanisms. 3 hours lecture. (007905)

**Grade Basis:** Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Upper Division**PSYC 489 Internship in Applied Psy****1-6 Units****Prerequisite:** Necessary background for specific internship.**Typically Offered:** Fall and spring

This course is an internship offered for 1.0-6.0 units. You must register directly with a supervising faculty member. This course provides directed experience in agencies, institutions, or work setting appropriate to the application of psychological background and training. 0 hours independent study. (007988)

**Grade Basis:** Credit/No Credit**Repeatability:** You may take this course for a maximum of 15 units**Course Attributes:** Upper Division**PSYC 499 Special Problems****1-3 Units****Prerequisite:** Faculty permission.**Typically Offered:** Fall and spring

This course is an independent study of special problems offered for 1.0-3.0 units. You must register directly with a supervising faculty member. 9 hours supervision. (007995)

**Grade Basis:** Credit/No Credit**Repeatability:** You may take this course for a maximum of 6 units**Course Attributes:** Upper Division

<p><b>PSYC 499H Honors Seminar in Psychology II</b> <b>3 Units</b>  <b>Prerequisite:</b> Completion of PSYC 399HW with a B or higher, faculty permission.  <b>Typically Offered:</b> Spring only            A seminar for Honors students. Prepare the creative project begun in PSY 399HW for presentation and publication. 9 hours supervision. (007992)  <b>Grade Basis:</b> Graded  <b>Repeatability:</b> You may take this course for a maximum of 3 units  <b>Course Attributes:</b> Upper Division</p>	<p><b>PSYC 600 Research and Evaluation Methods</b> <b>3 Units</b>  <b>Prerequisite:</b> PSYC 364 or equivalent, faculty permission.  <b>Typically Offered:</b> Fall only            An examination of the nature and process of understanding and evaluating, as well as designing and conducting psychological research and evaluations studies. Important issues and criteria for evaluating quality and drawing conclusions will be emphasized. 3 hours seminar. (007996)  <b>Grade Basis:</b> Graduate Graded  <b>Repeatability:</b> You may take this course for a maximum of 3 units  <b>Course Attributes:</b> Graduate Division</p>
<p><b>PSYC 524 Neuroscience</b> <b>3 Units</b>  <b>Prerequisite:</b> PSYC 321 or PSYC 324 or faculty permission.  <b>Typically Offered:</b> Fall only            A study of the physiological processes and anatomical regions of the nervous system which underlie the behaviors of sensation/perception, movement, motivation (sleep and dreams; hunger and eating disorders), emotion (pleasure and addiction; fear, stress, and health), cognition (language; learning and memory), and disorders of the human brain (depressive disorders, anxiety disorders; schizophrenia; and Alzheimer's disease). The course also includes study of the current methods used by neuroscientists to study brain and behavior in humans. 3 hours discussion. (007979)  <b>Grade Basis:</b> Graded  <b>Repeatability:</b> You may take this course for a maximum of 3 units  <b>Course Attributes:</b> Upper Division</p>	<p><b>PSYC 603 Advanced Developmental Psychology</b> <b>3 Units</b>  <b>Prerequisite:</b> PSYC 355, faculty permission.  <b>Typically Offered:</b> Fall and spring            Study of both typical human development and individual differences. Developmental issues and life events from infancy to old age and their effects upon individuals, couples, and family relationships. Emphasis will be on current theory and research related to social, emotional, and language development, and its relationship to practice. Biological and environmental influences are addressed. 3 hours seminar. (008018)  <b>Grade Basis:</b> Graduate Graded  <b>Repeatability:</b> You may take this course for a maximum of 3 units  <b>Course Attributes:</b> Graduate Division</p>
<p><b>PSYC 560 Principles of Psychological Measurement</b> <b>3 Units</b>  <b>Prerequisite:</b> A course in statistics including research design.  <b>Typically Offered:</b> Fall and spring            Basic psychological measurement theory and principles of test construction. 2 hours activity, 2 hours discussion. (007960)  <b>Grade Basis:</b> Graded  <b>Repeatability:</b> You may take this course for a maximum of 3 units  <b>Course Attributes:</b> Upper Division</p>	<p><b>PSYC 605 Advanced Human Learning</b> <b>3 Units</b>  <b>Prerequisite:</b> PSYC 466, faculty permission.  <b>Typically Offered:</b> Fall only            Factors contributing to acquisition, performance, and retention. The methods of evaluating learning. 3 hours seminar. (008020)  <b>Grade Basis:</b> Graduate Graded  <b>Repeatability:</b> You may take this course for a maximum of 3 units  <b>Course Attributes:</b> Graduate Division</p>
<p><b>PSYC 571 Psychopharmacology</b> <b>3 Units</b>  <b>Typically Offered:</b> Spring only            The study of the mechanisms by which psychotropic drugs and natural plant substances alter human behavior and psychological state. The course emphasizes fundamentals of brain function (neurotransmitter-receptor interactions), principles of pharmacology, drugs of abuse and dependence, clinical pharmacology (the use of medications to treat behavioral, psychological, and psychiatric conditions such as eating disorders, hyperactivity, depressive disorders, anxiety disorders, schizophrenia, and Alzheimer's disease), and the use of drugs to alter cognitive states and improve attention, memory, and learning. 3 hours lecture. (007974)  <b>Grade Basis:</b> Graded  <b>Repeatability:</b> You may take this course for a maximum of 3 units  <b>Course Attributes:</b> Upper Division</p>	<p><b>PSYC 610 Advanced General Psychology</b> <b>3 Units</b>  <b>Typically Offered:</b> Fall only            Survey of topics in general psychology and recent relevant research. Particular emphasis on major theoretical positions. 3 hours seminar. (008002)  <b>Grade Basis:</b> Graduate Graded  <b>Repeatability:</b> You may take this course for a maximum of 3 units  <b>Course Attributes:</b> Graduate Division</p>
<p><b>PSYC 573 Introduction to Counseling Psychology</b> <b>3 Units</b>  <b>Prerequisite:</b> Senior or graduate standing, faculty permission.  <b>Typically Offered:</b> Fall only            Theory of individual and family counseling and laboratory practice in individual counseling. 3 hours laboratory, 2 hours lecture. (007976)  <b>Grade Basis:</b> Graded  <b>Repeatability:</b> You may take this course for a maximum of 3 units  <b>Course Attributes:</b> Upper Division</p>	<p><b>PSYC 611 Advanced Statistical Methods in Psychology</b> <b>3 Units</b>  <b>Prerequisite:</b> PSYC 364, PSYC 600 or faculty permission.  <b>Typically Offered:</b> Spring only            Principles of experimental design and the philosophy of science, with emphasis on the evaluation of multivariate correlational data. 3 hours seminar. (008000)  <b>Grade Basis:</b> Graduate Graded  <b>Repeatability:</b> You may take this course for a maximum of 3 units  <b>Course Attributes:</b> Graduate Division</p>
	<p><b>PSYC 615 Seminar in Contemporary Issues of General Psychology</b> <b>3 Units</b>  <b>Typically Offered:</b> Spring only            Detailed study and discussion of a specific area in general psychology. Content will reflect instructor's specialization. 3 hours seminar. (008003)  <b>Grade Basis:</b> Graduate Graded  <b>Repeatability:</b> You may take this course for a maximum of 6 units  <b>Course Attributes:</b> Graduate Division</p>

<p><b>PSYC 620 Professional Seminar</b> <span style="float: right;"><b>1 Unit</b></span>  <b>Typically Offered:</b> Fall and spring  Discussion of contemporary topics within psychological science. 1 hour lecture. (022266)  <b>Grade Basis:</b> Credit/No Credit  <b>Repeatability:</b> You may take this course for a maximum of 6 units  <b>Course Attributes:</b> Graduate Division</p>	<p><b>PSYC 634 Practicum in School Counseling Interventions</b> <span style="float: right;"><b>3 Units</b></span>  <b>Prerequisite:</b> PSYC 573, PSYC 632, PSYC 680, all with grades of B or higher.  <b>Typically Offered:</b> Fall only  Students develop knowledge of a variety of school counseling interventions and roles, including leadership and supervision. Students develop skills, through supervised practice, in the following activities:  a) counseling groups of children, b) classroom instruction in emotional awareness, social skills, and conflict resolution, and c) intervention with children in crisis. 3 hours clinical. (008022)  <b>Grade Basis:</b> Graduate Graded  <b>Repeatability:</b> You may take this course for a maximum of 3 units  <b>Course Attributes:</b> Graduate Division</p>
<p><b>PSYC 628A Issues in Teaching Counseling Process</b> <span style="float: right;"><b>1 Unit</b></span>  <b>Prerequisite:</b> Graduate standing in psychology, concurrent enrollment in or prior completion of PSYC 673A, concurrent enrollment in PSYC 629A, faculty permission.  <b>Typically Offered:</b> Fall and spring  Consideration of issues and techniques in teaching counseling skills at the college level. 1 hour seminar. (008011)  <b>Grade Basis:</b> Graduate Graded  <b>Repeatability:</b> You may take this course for a maximum of 6 units  <b>Course Attributes:</b> Graduate Division</p>	<p><b>PSYC 636 Practicum in Behavioral Consultation in Schools</b> <span style="float: right;"><b>3 Units</b></span>  <b>Prerequisite:</b> PSYC 605, PSYC 650, all with a grade of B or higher.  <b>Typically Offered:</b> Fall only  Students develop knowledge of behavioral consultation theory and its application in PreK-12 schools. Students develop skills in behavioral consultation through supervised experiences designed to effect changes in behavior for particular children or classrooms. 3 hours clinical. (008025)  <b>Grade Basis:</b> Graduate Graded  <b>Repeatability:</b> You may take this course for a maximum of 3 units  <b>Course Attributes:</b> Graduate Division</p>
<p><b>PSYC 628B Issues in Teaching College Psychology</b> <span style="float: right;"><b>1 Unit</b></span>  <b>Prerequisite:</b> Graduate standing in psychology, faculty permission.  <b>Typically Offered:</b> Fall and spring  Comprehensive consideration of issues in teaching at the college level and techniques related to successful instruction. 1 hour seminar. (008012)  <b>Grade Basis:</b> Graduate Graded  <b>Repeatability:</b> You may take this course for a maximum of 1 unit  <b>Course Attributes:</b> Graduate Division</p>	<p><b>PSYC 639 Practicum in Academic Intervention</b> <span style="float: right;"><b>3 Units</b></span>  <b>Prerequisite:</b> PSYC 605, PSYC 650, PSYC 660, all with a grade of B or higher.  <b>Typically Offered:</b> Fall only  Students develop knowledge of the theory, principles, methods, and skills of instructional consultation in the schools. Students develop skills in academic consultation through supervised practice in the design, implementation, and evaluation of empirically-based interventions in PreK-12 schools for academic skill deficits. 3 hours clinical. (008024)  <b>Grade Basis:</b> Graduate Graded  <b>Repeatability:</b> You may take this course for a maximum of 3 units  <b>Course Attributes:</b> Graduate Division</p>
<p><b>PSYC 629A Supervised Teaching of Counseling Process</b> <span style="float: right;"><b>1 Unit</b></span>  <b>Prerequisite:</b> Graduate standing in psychology, concurrent enrollment in PSYC 628A, faculty permission.  <b>Typically Offered:</b> Fall and spring  Supervised teaching of lecture or laboratory work in college-level counseling courses. 1 hour seminar. - PSYC 650 Introduction to School Consultation** 3 Units  
**Prerequisite:** PSYC 573 with a grade of B or higher, or faculty permission.  
**Typically Offered:** Spring only  
 Students are introduced to and develop knowledge of the theories and models (e.g. behavioral, mental health, ecological, instructional, organizational) of PreK-12 school-based consultation. Students develop relevant skills (problem-solving, communication/interpersonal) important to consultation. 3 hours seminar. (022059)  
**Grade Basis:** Graduate Graded  
**Repeatability:** You may take this course for a maximum of 3 units  
**Course Attributes:** Graduate Division
- PSYC 655 School Psychology: Cultural Considerations in Service Delivery** 3 Units  
**Typically Offered:** Spring only  
 This course is designed for students who intend to work in PreK-12 schools or with other child and adolescent populations. Students develop knowledge and understanding of culturally diverse populations and their experiences. The impact of both individual and systemic racism and other oppressions are addressed. Models for change at various levels are also addressed. 3 hours seminar. (022058)  
**Grade Basis:** Graduate Graded  
**Repeatability:** You may take this course for a maximum of 3 units  
**Course Attributes:** Graduate Division
- PSYC 660 Instructionally Focused Assessment in the Schools** 3 Units  
**Prerequisite:** PSYC 680 with a grade of B or higher.  
**Typically Offered:** Spring only  
 Students gain knowledge of the theory and methods of selecting, administering, and interpreting screening instruments, norm-referenced achievement tests, curriculum-based assessments, and observational systems to identify academic concerns in PreK-12 students. Students also develop skills in the selection, administration, scoring, interpretation, and reporting results of individually-administered tests of academic achievement through supervised practice. Evidence-based instruction and strategies for the general classroom are emphasized. 3 hours seminar. (008030)  
**Grade Basis:** Graduate Graded  
**Repeatability:** You may take this course for a maximum of 3 units  
**Course Attributes:** Graduate Division
- PSYC 661 Assessment of Intelligence and Cognition** 2 Units  
**Prerequisite:** PSYC 660, PPS School Psychology Credential students only, faculty permission.  
**Corequisites:** PSYC 661L.  
**Typically Offered:** Fall only  
 Students develop knowledge of theories of intelligence, basic concepts related to psychometrics, and issues related to the use and misuse of psychological tests with various populations of school-age children. The course stresses the critical analysis of currently used tests of intelligence, with special consideration of the Wechsler scales. 2 hours seminar. (008033)  
**Grade Basis:** Graduate Graded  
**Repeatability:** You may take this course for a maximum of 2 units  
**Course Attributes:** Graduate Division
- PSYC 661L Laboratory in Assessment of Intelligence and Cognition** 1 Unit  
**Prerequisite:** PSYC 660, PPS School Psychology Credential students only, faculty permission.  
**Corequisites:** PSYC 661  
**Typically Offered:** Fall only  
 Students develop skills in the selection, administration, scoring, interpretation, and reporting results of individually-administered tests of intelligence and cognition through supervised practice. 3 hours laboratory. (008034)  
**Grade Basis:** Graduate Graded  
**Repeatability:** You may take this course for a maximum of 1 unit  
**Course Attributes:** Graduate Division
- PSYC 662 Social and Emotional Assessment** 2 Units  
**Prerequisite:** PSYC 660, PSYC 661, PSYC 661L; PPS School Psychology Credential students only; faculty permission.  
**Corequisites:** PSYC 662L.  
**Typically Offered:** Spring only  
 Students develop knowledge of assessing the socio-emotional and behavioral functioning of school-aged children. Issues related to the assessment of personality and social-emotional functioning, including test construction and design, are emphasized through critical examination of numerous instruments and procedures currently used in the social and emotional assessment of children. 2 hours seminar. (008036)  
**Grade Basis:** Graduate Graded  
**Repeatability:** You may take this course for a maximum of 2 units  
**Course Attributes:** Graduate Division
- PSYC 662L Laboratory Social and Emotional Assessment** 1 Unit  
**Prerequisite:** PSYC 660, PSYC 661, PSYC 661L; PPS School Psychology Credential students only; faculty permission.  
**Corequisites:** PSYC 662.  
**Typically Offered:** Spring only  
 Students gain skill in the selection, administration, scoring, interpretation, and reporting results of various tests and procedures used in the socio-emotional assessment of children through supervised practice. 3 hours laboratory. (008037)  
**Grade Basis:** Graduate Graded  
**Repeatability:** You may take this course for a maximum of 1 unit  
**Course Attributes:** Graduate Division
- PSYC 663 Advanced Supervision in Psychological Assessment** 3 Units  
**Prerequisite:** PSYC 661, PSYC 661L, PSYC 662, PSYC 662L, faculty permission.  
**Typically Offered:** Fall only  
 Provides advanced training in the meaningful interpretation of various forms of assessment and the communication of this information in the form of a written report. Supervision of cases from field-based practice. 9 hours supervision. (008038)  
**Grade Basis:** Graduate Graded  
**Repeatability:** You may take this course for a maximum of 3 units  
**Course Attributes:** Graduate Division

**PSYC 665 Psychological Assessment Marriage and Family Therapists 3 Units****Prerequisite:** PSYC 643 strongly recommended, faculty permission.**Typically Offered:** Spring only

An examination of psychological assessment procedures commonly used in Marriage and Family Therapy (MFT). Includes training in the use and interpretation of selected procedures within the scope of MFT practice and familiarization with other tests and instruments used collaboratively in patient/client care by other mental health professionals. **Grade Basis:** Graduate Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Graduate Division**PSYC 680 School Psychology: Introduction to the Profession 3 Units****Prerequisite:** Faculty permission.**Typically Offered:** Fall only

Students gain knowledge of current and emergent roles of school psychologists, areas of professional expertise, preventive service delivery, and education as a social system. 3 hours seminar. (008057)

**Grade Basis:** Graduate Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Graduate Division**PSYC 681 School Psychology: Study of Childhood Exceptionalities 3 Units****Prerequisite:** PSYC 680, faculty permission.**Typically Offered:** Spring only

Students gain knowledge of various childhood exceptionalities including specific learning disabilities, mental retardation, behavioral and emotional disorders, low-incidence neurologically-based disorders, and physical and health-related handicaps from birth to early adulthood. Emphasis is placed on the role of school psychologists in identification and intervention, including the review of special education referral processes and service delivery options. 3 hours seminar. (008058)

**Grade Basis:** Graduate Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Graduate Division**PSYC 682 School Psychology: Legal and Ethical Principles 3 Units****Prerequisite:** PSYC 680, faculty permission.**Typically Offered:** Spring only

Students gain knowledge of the history and development of school psychology as a profession as well as the laws and ethical principles relevant to school psychology and their application to daily practice. 3 hours seminar. (008059)

**Grade Basis:** Graduate Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Graduate Division**PSYC 687 Traineeship in Marital and Family Therapy 1-9 Units****Prerequisite:** PSYC 673A and PSYC 673B (with grade of B or higher in each course); PSYC 673B may be taken concurrently with program coordinator permission.**Typically Offered:** Fall and spring

You must register directly with a supervising faculty member. Supervised MFT traineeship in a campus or community setting for those pursuing MFT licensure. A minimum of 6 units is required for MS in Psychology. 0 hours supervision. (008075)

**Grade Basis:** Graduate Graded**Repeatability:** You may take this course for a maximum of 9 units**Course Attributes:** Graduate Division**PSYC 688A Practicum in School Psychology 3 Units****Prerequisite:** Advancement to candidacy, faculty permission, open only to approved PPS School Psychology credential students.**Typically Offered:** Fall only

Supervised school psychology practicum experience in PreK-12 schools. Students develop and practice skills across the National Association of School Psychologists' 10 Domains of Practice. 9 hours supervision. (022065)

**Grade Basis:** Graduate Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Graduate Division**PSYC 688B Advanced Practicum in School Psychology 3 Units****Prerequisite:** PSYC 688A, faculty permission, open only to approved PPS School Psychology credential students.**Typically Offered:** Spring only

Supervised school psychology practicum experience in PreK-12 schools. Students practice and demonstrate skills across the National Association of School Psychologists' 10 Domains of Practice. 9 hours supervision. (008082)

**Grade Basis:** Graduate Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Graduate Division**PSYC 689A Internship in School Psychology I 5 Units****Prerequisite:** Advancement to candidacy, faculty permission, open only to approved PPS School Psychology credential students.**Typically Offered:** Fall only

Internship in a selected school psychology setting. Interns demonstrate skills across the National Association of School Psychologists' 10 Domains of Practice. 15 hours supervision. (008084)

**Grade Basis:** Graduate Graded**Repeatability:** You may take this course for a maximum of 5 units**Course Attributes:** Graduate Division**PSYC 689B Internship in School Psychology II 5 Units****Prerequisite:** PSYC 689A, faculty permission, open only to approved PPS School Psychology credential students.**Typically Offered:** Spring only

Internship in a selected school psychology setting. Interns demonstrate skills across the National Association of School Psychologists' 10 Domains of Practice. 15 hours supervision. (008085)

**Grade Basis:** Graduate Graded**Repeatability:** You may take this course for a maximum of 5 units**Course Attributes:** Graduate Division

**PSYC 694 Research Assistantship****1 Unit****Prerequisite:** PSYC 364 or equivalent and at least conditionally classified status, faculty permission.**Typically Offered:** Fall and spring

Students learn the research process through active participation in various phases of faculty research, including theoretical development, methodology, data collection, analysis and interpretation, report writing and, when appropriate, conference presentations. 3 hours supervision. (008090)

**Grade Basis:** Credit/No Credit**Repeatability:** You may take this course for a maximum of 4 units**Course Attributes:** Graduate Division**PSYC 695 Seminar in Research Problems****1 Unit****Prerequisite:** PSYC 600 or its equivalent, faculty permission; PSYC 611 is recommended.**Typically Offered:** Fall and spring

Theoretical development and design of an empirical research study to further develop skills and completion of a written research proposal by the student, with faculty assistance and supervision. You must register directly with a supervising faculty member. 1 hour seminar. (008089)

**Grade Basis:** Credit/No Credit**Repeatability:** You may take this course for a maximum of 2 units**Course Attributes:** Graduate Division**PSYC 696A School Psychology: Comprehensive Exam I****3 Units****Prerequisite:** Advancement to candidacy, faculty permission, open only to approved PPS School Psychology credential students.**Typically Offered:** Fall only

Designed for School Psychology students who have chosen the comprehensive exam as a culminating activity. Students demonstrate, on a written examination, knowledge across the National Association of School Psychologists' 10 Domains of Practice. 9 hours supervision. (022066)

**Grade Basis:** Graduate Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Graduate Division**PSYC 696B School Psychology: Comprehensive Exam II****3 Units****Prerequisite:** Advancement to candidacy, faculty permission, open only to approved PPS School Psychology credential students.**Typically Offered:** Spring only

Designed for School Psychology students who have chosen the comprehensive exam as a culminating activity. Students demonstrate, on a written examination, knowledge across the National Association of School Psychologists' 10 Domains of Practice. The exam is offered during the student's last semester of master's study. 9 hours supervision. (015916)

**Grade Basis:** Credit/No Credit**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Graduate Division**PSYC 696M Marriage and Family Therapy Comprehensive Exam****3 Units****Prerequisite:** Advancement to candidacy in the M.S. in Psychology; faculty permission. Completion of all courses required as part of the M.S. in Psychology (or are concurrently enrolled).**Typically Offered:** Fall and spring

As a culminating activity for the MS in Psychology, Marriage and Family Therapy program, students may participate in the MFT Program Comprehensive Exam. The MFT comprehensive exam experience is designed to mirror the two required examinations for licensure as a Marriage and Family Therapist in the state of California. The course experience includes studying key theories, themes, and concepts presented throughout the program curriculum. This material will be presented and organized in a manner consistent with state licensing examination requirements. Students also prepare for their examination by taking several practice exams. The course also include discussion of examination best practices. 3 hours lecture. (022222)

**Grade Basis:** Graduate Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Graduate Division**PSYC 697 Independent Study****1-6 Units****Typically Offered:** Fall and spring

This course is a graduate-level independent study offered for 1.0-6.0 units. You must register directly with a supervising faculty member. 3 hours supervision. (008092)

**Grade Basis:** Report in Progress: Graded**Repeatability:** You may take this course for a maximum of 6 units**Course Attributes:** Graduate Division**PSYC 697P Professional Paper: Empirical Research Manuscript****1-6 Units****Prerequisite:** Advancement to Candidacy, faculty permission.**Typically Offered:** Fall and spring

Faculty supervision of an empirical research study designed by the student. Student responsibilities include data collection, data analysis, and the final submission of a complete, professionally written research report. This course is offered for 1.0-6.0 units. You must register directly with a supervising faculty member. 0 hours supervision. (021384)

**Grade Basis:** Report in Progress: CR/NC**Repeatability:** You may take this course for a maximum of 6 units**Course Attributes:** Graduate Division**PSYC 697R Analytical Review****3 Units****Prerequisite:** Advancement to candidacy, faculty permission.**Typically Offered:** Fall and spring

Culminating activity for MS degree program. A comprehensive written critique of the literature in an area of specialization and/or interest and a written examination. 9 hours supervision. (008099)

**Grade Basis:** Report in Progress: Graded**Repeatability:** You may take this course for a maximum of 3 units**Course Attributes:** Graduate Division**PSYC 699P Master's Project****1-6 Units****Prerequisite:** Advancement to candidacy, faculty permission.**Typically Offered:** Fall and spring

This course is offered for 1.0-6.0 units respectively. You must register directly with a supervising faculty member. 9 hours supervision. (008102)

**Grade Basis:** Report in Progress: CR/NC**Repeatability:** You may take this course for a maximum of 6 units**Course Attributes:** Graduate Division

**PSYC 699T Master's Thesis****1-6 Units****Prerequisite:** Advancement to candidacy, faculty permission.**Typically Offered:** Fall and spring

This course is offered for 1.0-6.0 units. You must register directly with a supervising faculty member. 9 hours supervision. (008100)

**Grade Basis:** Report in Progress: CR/NC**Repeatability:** You may take this course for a maximum of 6 units**Course Attributes:** Graduate Division
