**TECH 101  MESA Orientation Class**  2 Units  
**Prerequisite:** MESA eligibility.  
**Typically Offered:** Fall only  
A comprehensive introduction that provides incoming Math, Engineering, Science Achievement (MESA) students with an overview of the fields of engineering and computer science, along with information on degree requirements, technical skills needed, working in industry, professional organizations, and professional development. In addition, there is an introduction to campus resources and university life for first-year MESA students. 2 hours lecture.  
**Grade Basis:** ABC/No Credit  
**Repeatability:** You may take this course for a maximum of 2 units  
**Course Attributes:** Lower Division

**TECH 180  Invention and Innovation**  3 Units  GE  
**Typically Offered:** Fall and spring  
This course explores invention and innovation, looking at the social, cultural, economic, environmental, intellectual, and sustainable contexts of technologies and scientific advancements. Critical technologies and scientific advancements are explored; how these technologies and advancements came about including the individuals, connections, organizations, settings, and culture which enabled the development. The impact on the individual, culture, society, economy, environment, sustainability, and other technologies and advancements at their inception, in our current world and the future, are considered. Throughout these investigations attention is directed to the development and social context of these inventions and advancements, challenging students to understand the past as the foundation of the world today and setting the stage for the future. 3 hours lecture.  
**General Education:** Social Sciences (D)  
**Grade Basis:** Graded  
**Repeatability:** You may take this course for a maximum of 3 units  
**Course Attributes:** Lower Division

**TECH 380W  Inventing the Future (W)**  3 Units  GE, W  
**Prerequisite:** GE Oral Communication (A1); GE Written Communication (A2); GE Critical Thinking (A3); GE Physical Sciences (B1); GE Life Sciences (B2); GE Mathematics/Quantitative Reasoning (B4) requirements, or consent of the instructor.  
**Typically Offered:** Fall and spring  
Rise to the challenge and take responsibility for your future. In this course students explore the nature of invention and innovation in context of the individual, culture, society, economics, environment, technology science, and sustainability among others. Case studies of innovators and inventors are studied, placing the ideas and inventions in historic context as well as considering contemporary and future implications. In light of this exploration and study, the students are challenged to develop their own creative proposal for new innovations or inventions. Not simply a refinement, but a creative innovation and invention, and then to consider and analyze the implications and ramifications of their idea. 3 hours lecture.  
**General Education:** Upper-Division Scientific Inq/Quant Reason (UDB); Innovation, Design, and the Arts Pathway; Science, Technology, and Society Pathway  
**Grade Basis:** Graded  
**Repeatability:** You may take this course for a maximum of 3 units  
**Course Attributes:** Upper Division; Writing Course

**TECH 398**  Advanced Special Topics  1-4 Units  
**Typically Offered:** Inquire at department  
This course is for special topics offered for 1.0-4.0 units. Typically the topic is offered on a one-time-only basis and may vary from term to term and be different for different sections. See The Class Schedule for the specific topic being offered. 0 hours supervision.  
**General Education:** Life Sciences (B2); GE Mathematics/Quantitative Reasoning (B4)  
**Grade Basis:** Graded  
**Repeatability:** You may take this course for a maximum of 4 units  
**Course Attributes:** Upper Division
